The Best of the New Patented Everblooming Hardy Hybrid Tea Roses

Better
Times
Everblooming

BETTER TIMES (Everblooming) Plant Patent No. 23—See illustration at left. Whether you wish a rose which holds its perfect form as shown by the color illustration, or for striking and brilliant color effect in the garden, or for profusion of bloom all throughout the summer, or for cut flowers indoors, Better Times is hard to beat. It has long crimson buds of delightful form, developing to very large, delightfully fragrant, perfectly formed flowers on long strong stems. **\$1.00 each; 3 for \$2.50.**

RHEINGOLD (Everblooming) Plant Patent No. 138—See illustration at right. A real golden yellow rose of perfect form, exquisite fragrance, and delightfully double, the flowers forming a pleasing contrast in the garden, with the large, light green, leathery foliage. A profuse bloomer all summer. **\$1.00 each; 3 for \$2.50.**

FALL IS THE VERY BEST TIME TO PLANT ROSES. This is not just my opinion, but the mature judgment of the American Rose Society after exhaustive research. Full directions for fall planting of Roses will be sent with each order.

Rheingold, Everblooming

RADIANT BEAUTY (Everblooming) Plant Patent No. 97—See illustration at left. The name aptly describes the flower, for it is a real "Radiant Beauty." This name is especially fitting because of an unusual new "eggshell finish." The color is a unique tone of brilliant deep red, and the flowers develop an unusual perfection in all sorts of weather. It is a hardy, vigorous grower, and a real ever-bloomer. **\$1.00 each; 3 for \$2.50.**

ON ALL PATENTED ROSES THE PRICE FOR THREE APPLIES ONLY WHERE THREE OF A VARIETY ARE ORDERED

PLANT PATENT
NO. 108

WHITE BRIARCLIFF (Everblooming) Plant Patent No. 108

—See illustration above. The supreme white Rose, of perfect form and pure glistening white. The best white Rose to date for all purposes. Hardy and a continuous bloomer. **\$1.00 each; 3 for \$2.50.**

SIGNORA (Everblooming) Plant Patent No. 201—See color illustration. The first winner of the GOLD MEDAL awarded by the newly organized International Contest of new Roses at the Gardens of Cello Oppio in Rome, Italy. Also awarded GOLD MEDAL in Portland, 1937, scoring highest rating of any 1937 Rose. This Rose is a real masterpiece in both plant and bloom. Long bud of burnt sienna; opening to a lighter shade, towards mandarine. Tall growing plant, with every bloom on a long stem. Very fragrant. **\$1.25 each; 3 for \$3.25.**

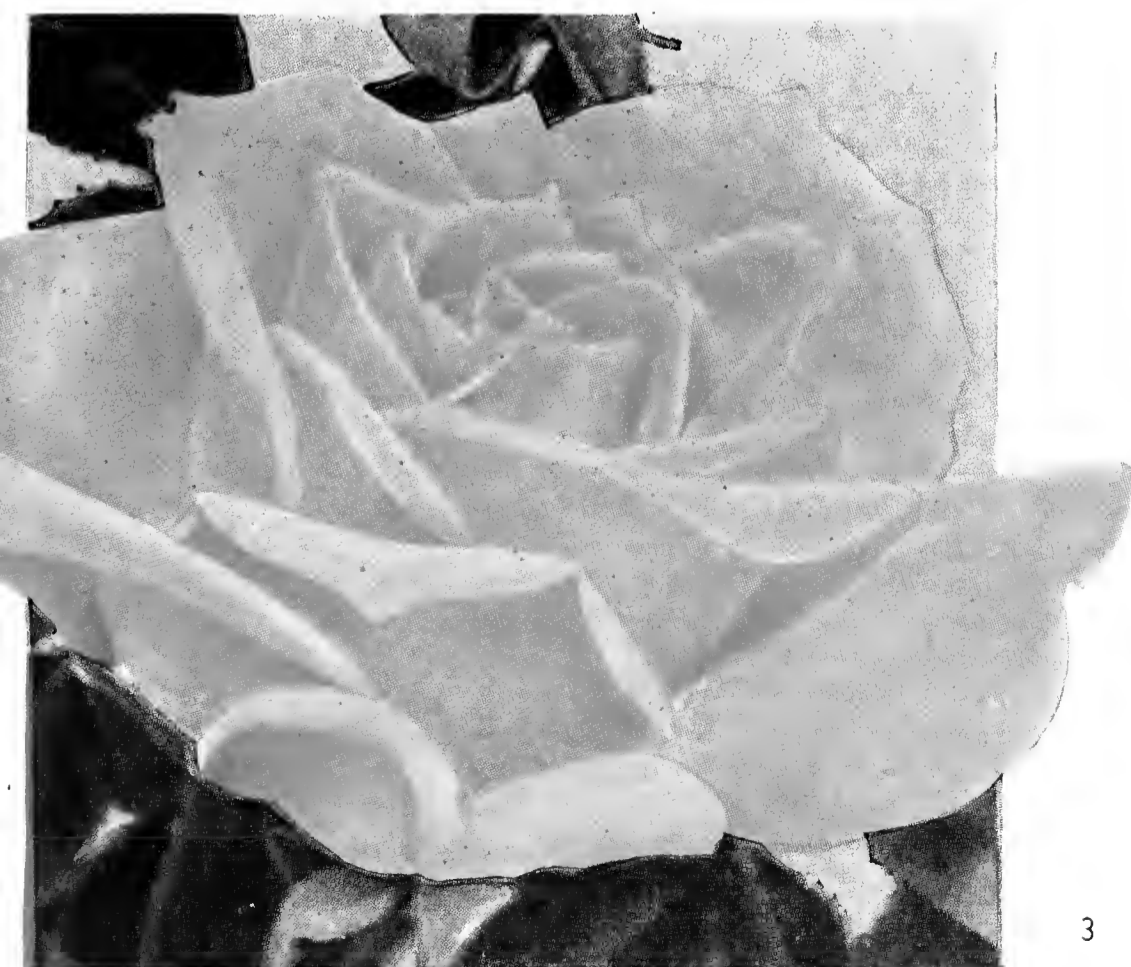

In purchasing these new patented Hardy Hybrid Tea Roses, you are assured that you will have in your garden the finest Roses created to date, as well as the newest. Newness is assured because no plant patents were issued prior to 1930. Superb quality is certain, because no plant patent is issued excepting to something new and distinct, or a sufficient improvement on those varieties already in existence to justify issuing a patent as something new and distinctive. When you buy a patented Rose, you not only buy a "new" Rose, but something superior to anything previously in existence.

Signora Everblooming

Ronsard
Everblooming

McGredy's Pink, Everblooming

RONSARD (Everblooming) Plant Patent applied for—

A new type of Rose of the most astonishing coloring. The bud is pure yellow, but the edges of the petals gradually curl back and display the deep scarlet red inside color, the fully open Rose showing the two-tone effect as shown in the above illustration. The flowers are produced in great quantity throughout the season. **\$1.50 each; 3 for \$3.75.**

McGREDY'S PINK (Everblooming) Plant Patent Rights Reserved—

It would be hard to imagine a more delightful pink Rose than this new Rose from Ireland. It has just a touch of yellow at the base of the petals to add to its unusual beauty. The flowers are large, of perfect form, sweetly scented, and produced continuously from June until late autumn. Superb as cut flowers, and magnificent in the garden. **\$1.50 each; 3 for \$3.75.**

ALL ORDERS FOR PATENTED ROSES OVER \$2.00 DELIVERED ANYWHERE IN THE UNITED STATES CHARGES PREPAID.

ON ORDERS OF \$2.00 OR UNDER PLEASE ADD TWENTY CENTS (20c) TO COVER POSTAGE AND PACKING.

The Best of the New Patented Everblooming Hardy Hybrid Tea Roses

Golden
Main
Everblooming

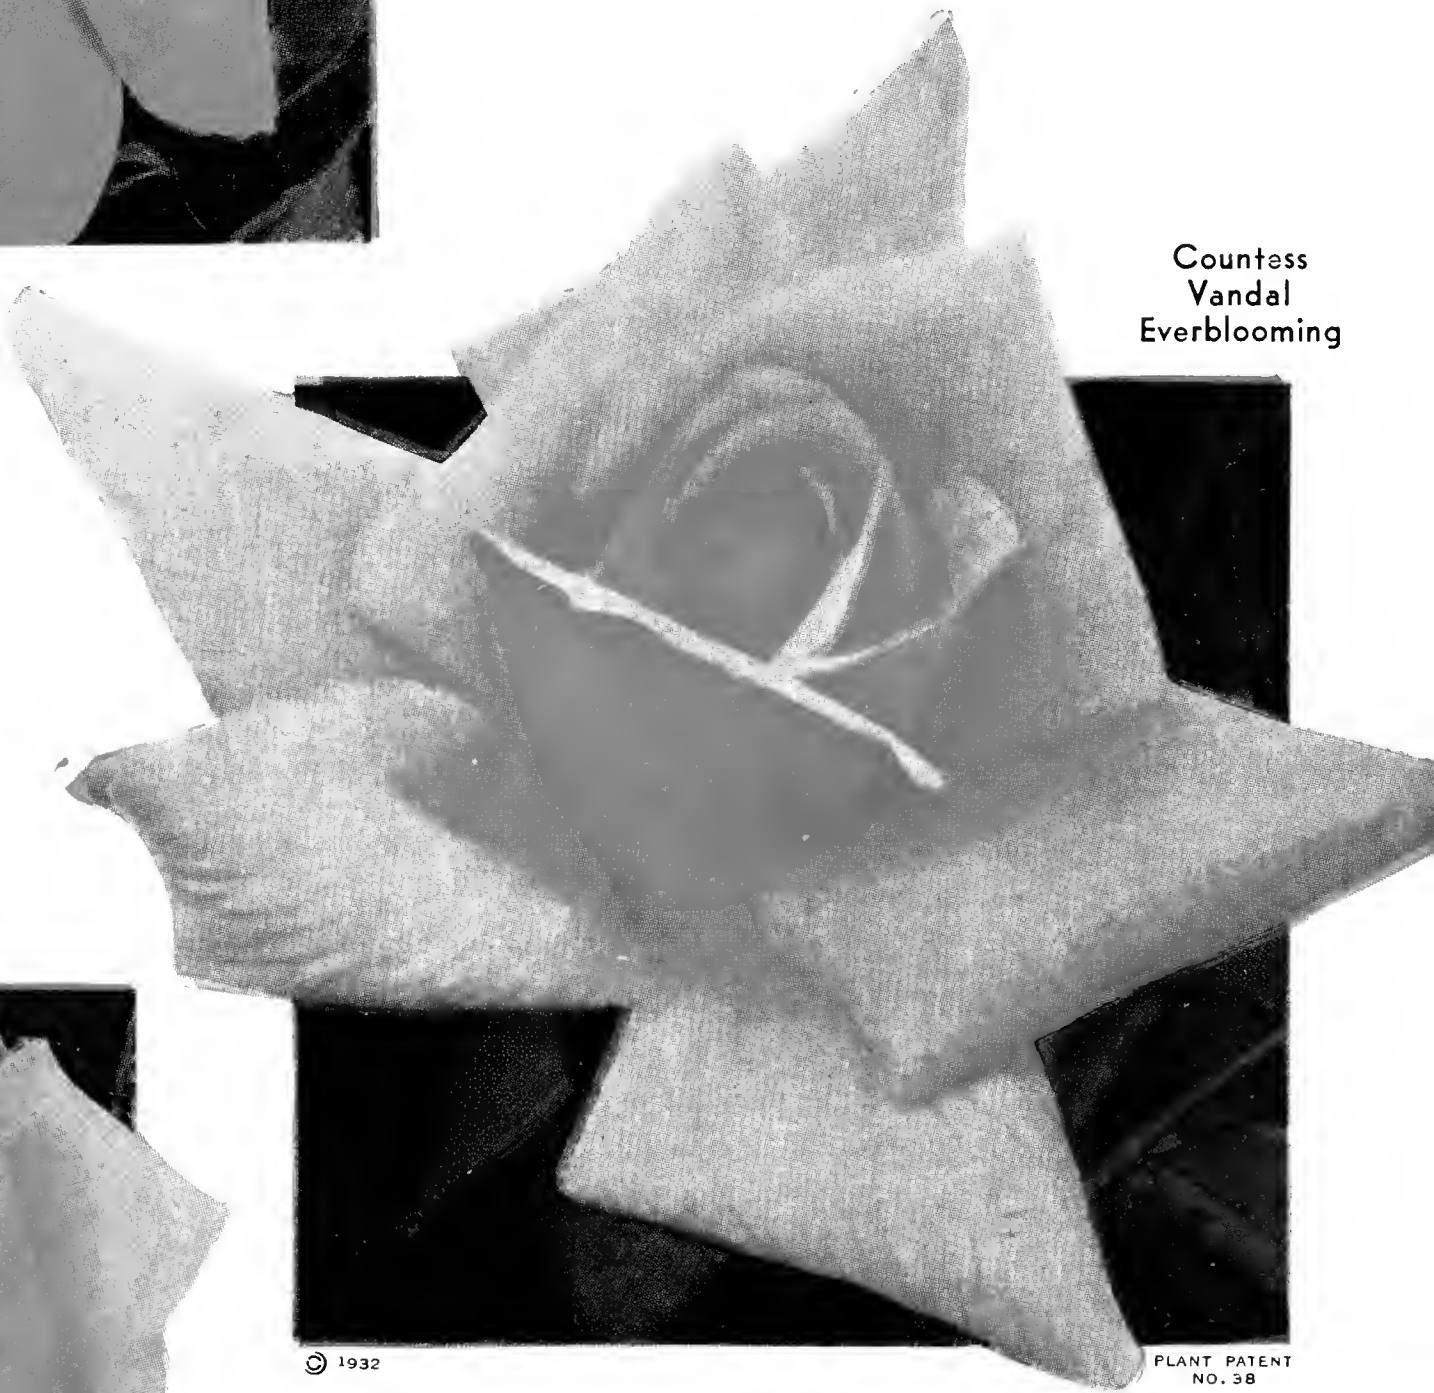

(Continued)

GOLDEN MAIN (Everblooming) Plant Patent No. 254—See illustration at left. This new Rose is one of the most brilliant of all yellow Roses, with large flowers that look like burnished brass. The colored illustration does not begin to do it justice. It is also one of the most hardy, vigorous and free flowering of all Roses, being constantly in bloom. The dark green foliage has a highly polished appearance and is disease resistant. **AWARDED A SILVER MEDAL IN 1937.** There is no more satisfactory golden yellow Rose than Golden Main. \$1.25 each; 3 for \$3.25.

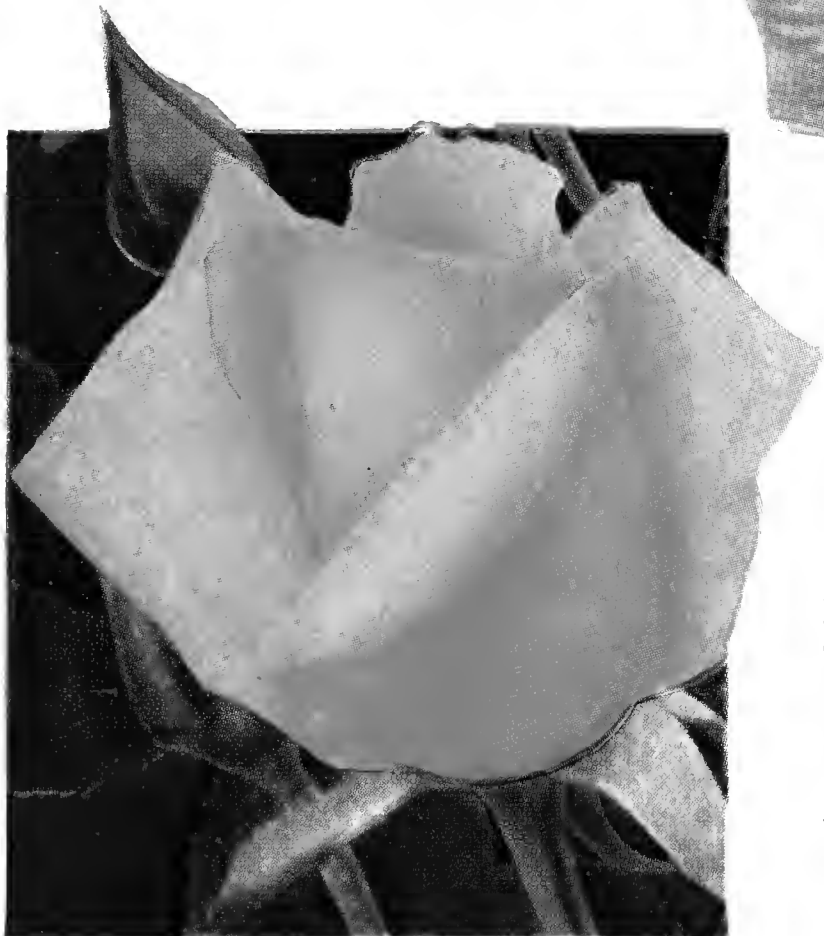

COUNTESS VANDAL (Everblooming) Plant Patent No. 38—See illustration at right. This Rose has been acclaimed the belle of the modern Rose Pageant, defeating all challengers by producing, without exception, the most artistic bud in rosedom, garbed in coppery bronze and pink, suffused with soft gold and silvery tones. It presents a continuous "movie," developing new beauty in the various stages of development. Constant bloomer all summer and fall. \$1.00 each; 3 for \$2.50.

Gloaming, Everblooming

GLOAMING (Everblooming) Plant Patent No. 137—See illustration at left. **AWARDED A GOLD MEDAL BY THE AMERICAN ROSE SOCIETY 1936. ALSO AWARDED A GOLD MEDAL IN FRANCE 1936.** I am sorry I did not have room on this page to show a completely developed flower instead of just a bud, as it is one of the most handsome roses grown, in all stages. The general tone is salmon pink, overcast with tawny orange and gold at the base, running up the reverse of petals. The open bloom is very large, very double, of perfect form and exquisitely fragrant. While it is a pink rose, there is no other rose like it. \$1.00 each; 3 for \$2.50.

I WILL FURNISH ON ALL ORDERS SENT OUT, ONLY THE FINEST NUMBER ONE, EXTRA STRONG TWO-YEAR OLD FIELD GROWN PLANTS WITH HEAVY ROOT SYSTEMS, PLANTS THAT SHOULD FILL YOUR GARDENS WITH ABUNDANCE OF BLOSSOMS ALL SUMMER LONG. THERE ARE NO FINER PLANTS GROWN THAN THOSE THAT I WILL SEND ON YOUR ORDER.

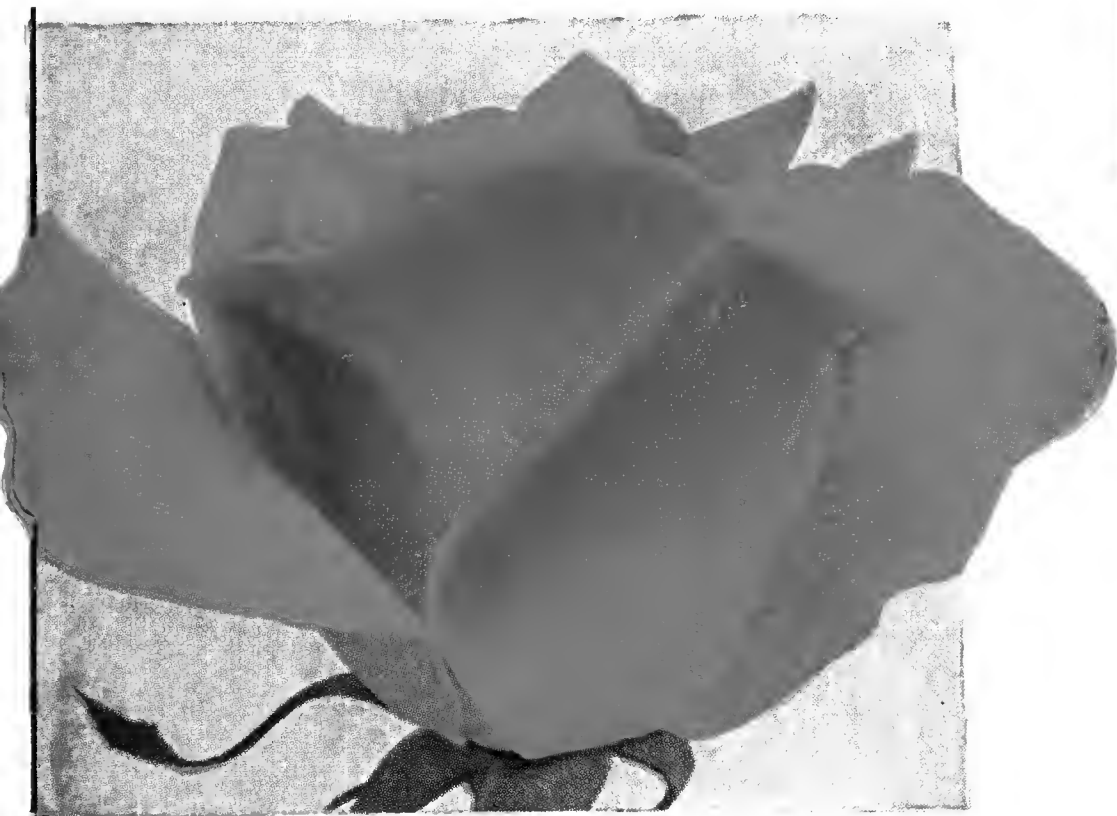

MARY HART (Everblooming) Plant Patent No. 8— See color illustration at right. Unsurpassed as a dark red rose, the color being a strikingly brilliant blood red, with an unusual velvety texture. The flower is of perfect form and may be depended upon to give an abundance of blooms all summer. Unexcelled in its color. **\$1.00 each; 3 for \$2.50.**

Alezane, Everblooming

© 1935

PLANT PATENT
NO. 116

ALEZANE (Everblooming) Plant Patent No. 116— AWARDED A SILVER MEDAL BY THE AMERICAN ROSE SOCIETY—1936. See color illustration at left, but the illustration gives but a faint idea of the great beauty of the flower, as it is much more handsome than shown by the illustration. It is a real beauty at every stage, in astounding colors that it is simply impossible to describe and in a perfection of form that leaves nothing to be desired. You'll be amazed at the beauty of Alezane in its various stages of development, from bud to full blown flower. **\$1.25 each; 3 for \$3.25.**

Amelia
Earhart

PLANT PATENT
NO. 63

AMELIA EARTHART (Everblooming) Plant Patent No. 63—This is one of the most delightful roses I have ever seen and is wanted by everyone who sees it in bloom. It is a huge flower, extremely double, opening a soft yellow and changing to ivory, with a slight blush overtone. It is extremely fragrant, a rugged, robust plant and a fine bloomer. See color illustration. **\$1.25 each; 3 for \$3.25.**

WAYMAN ROSES GIVE BEST RESULTS

Ask any one who grows them. From Montana: "Your Roses set out this spring are doing fine! Will have only Wayman Plants from now on."

From Massachusetts: "The roses recently ordered from you arrived O. K., and had the best root systems I have ever seen."

The Best of the New Patented Everblooming Hardy Hybrid Tea Roses

Matador, Everblooming

MATADOR (Everblooming) Plant Patent No. 170 — AWARDED A SILVER MEDAL AT PORTLAND, 1936. See color illustration at left. This is one of the most remarkable deep red roses ever produced. It is a brilliant crimson, with a rich velvety maroon sheen. The flower is very large and perfect in form and brimful of attar of Rose. It is a sturdy grower, a free bloomer and equally fine as a bedding variety or as a cut flower. The petals are of heavy kid-like substance, but with a velvety sheen, giving an unusual richness. **\$1.00 each; 3 for \$2.50.**

FROM NEW HAMPSHIRE:

"The Matador Rose I received from you won first prize in our flower show last summer, and I was quite proud. It was so beautiful that the Chairman asked permission to place it in the show. It was a real attraction at the show. Everything about it was perfect, very long stem, perfect foliage, etc."

YOU TOO CAN WIN PRIZES WITH WAYMAN ROSES

NIGRETTE (Everblooming) Plant Patent No. 87— See illustration above. "The Black Rose of Sangerhausen." This is the sensational new "Black Rose"

you have been reading about in the newspapers. Its color is very much like that of the Black Tulip, and from a little distance it seems to be dead black. This unusual Rose will be greatly admired in your garden.

\$1.00 each; 3 for \$2.50.

Eclipse

ECLIPSE (Everblooming) Plant Patent No. 172—See illustration above. A new American introduction and an International Rose sensation, WINNING ALL GRAND AWARDS THE WORLD OVER IN COMPETITION WITH ALL OF THE WORLD'S FINEST ROSES. Awarded prizes in Rome, Paris, and other test gardens, culminating in the BAGATELLE GOLD MEDAL awarded in France, June, 1936 for the best new Rose of the year. Previously awarded a GOLD MEDAL IN MAY, 1936, at the ANNUAL SHOW OF THE NATIONAL HORTICULTURAL SOCIETY OF FRANCE. In October, 1935, the ITALIAN GOVERNMENT AWARDED ECLIPSE THEIR ONE GOLD MEDAL OF THE YEAR. Elongated, stream-lined buds of pure golden-yellow opening to a magnificent double Rose of the same golden-yellow color. **\$1.25 each; 3 for \$3.25.**

© 1934

PLANT PATENT
NO. 62

GOVERNOR ALFRED E. SMITH (Everblooming)
Plant Patent No. 62—See color illustration above. If you have ever seen this rose, I need not tell you that it is sensational in every way. In size and shape it somewhat resembles a peony. The color is salmon pink, with an artistic blending of soft gold and with deeper tones on the outside of the petals. The bud is an artistic beauty and through its various stages of development new attractions are unfolded daily. It has a delightful sweet fragrance, and is an easy rose to grow. It has everything. **\$1.00 each; 3 for \$2.50.**

MRS. FRANCIS KING (Everblooming) Plant Patent No. 253—A rose that is difficult to illustrate in color, although the color plate at the right is an attempt to present some of the attractive features of this delightful rose. It belongs to a new race of roses, being a hybrid of Nutkana and related to Leonard Barron, first of that breed. All hybridizers agree that a good white Rose is hardest to produce. This probably is why such a connoisseur as Mrs. Francis King, one of the founders of the Garden Club of America, specified a white Rose as the one she wished to bear her name. She wisely wanted a Rose not easily duplicated. To make the problem more difficult, she requested "white gold" with the arctic vigor and hardiness of the Alaskan Rose, Nutkana. The bloom is very large and full, carried on a long upright stem, white at first, tinted cream and ivory, eventually turning to pure white, with soft gold in the center. It has the pleasing fragrance of wild roses and is a prolific, continuous bloomer. **CERTIFICATE OF MERIT, PORTLAND, 1937.**
\$1.00 each; 3 for \$2.50.

IT WILL BE NOTED THAT MANY OF THE FINE NEW PATENTED ROSES WHICH FORMERLY SOLD AT \$1.50 TO \$2.50 HAVE NOW BEEN REDUCED TO \$1.00 EACH, 3 FOR \$2.50, THUS PLACING THEM WITHIN THE REACH OF ALL.

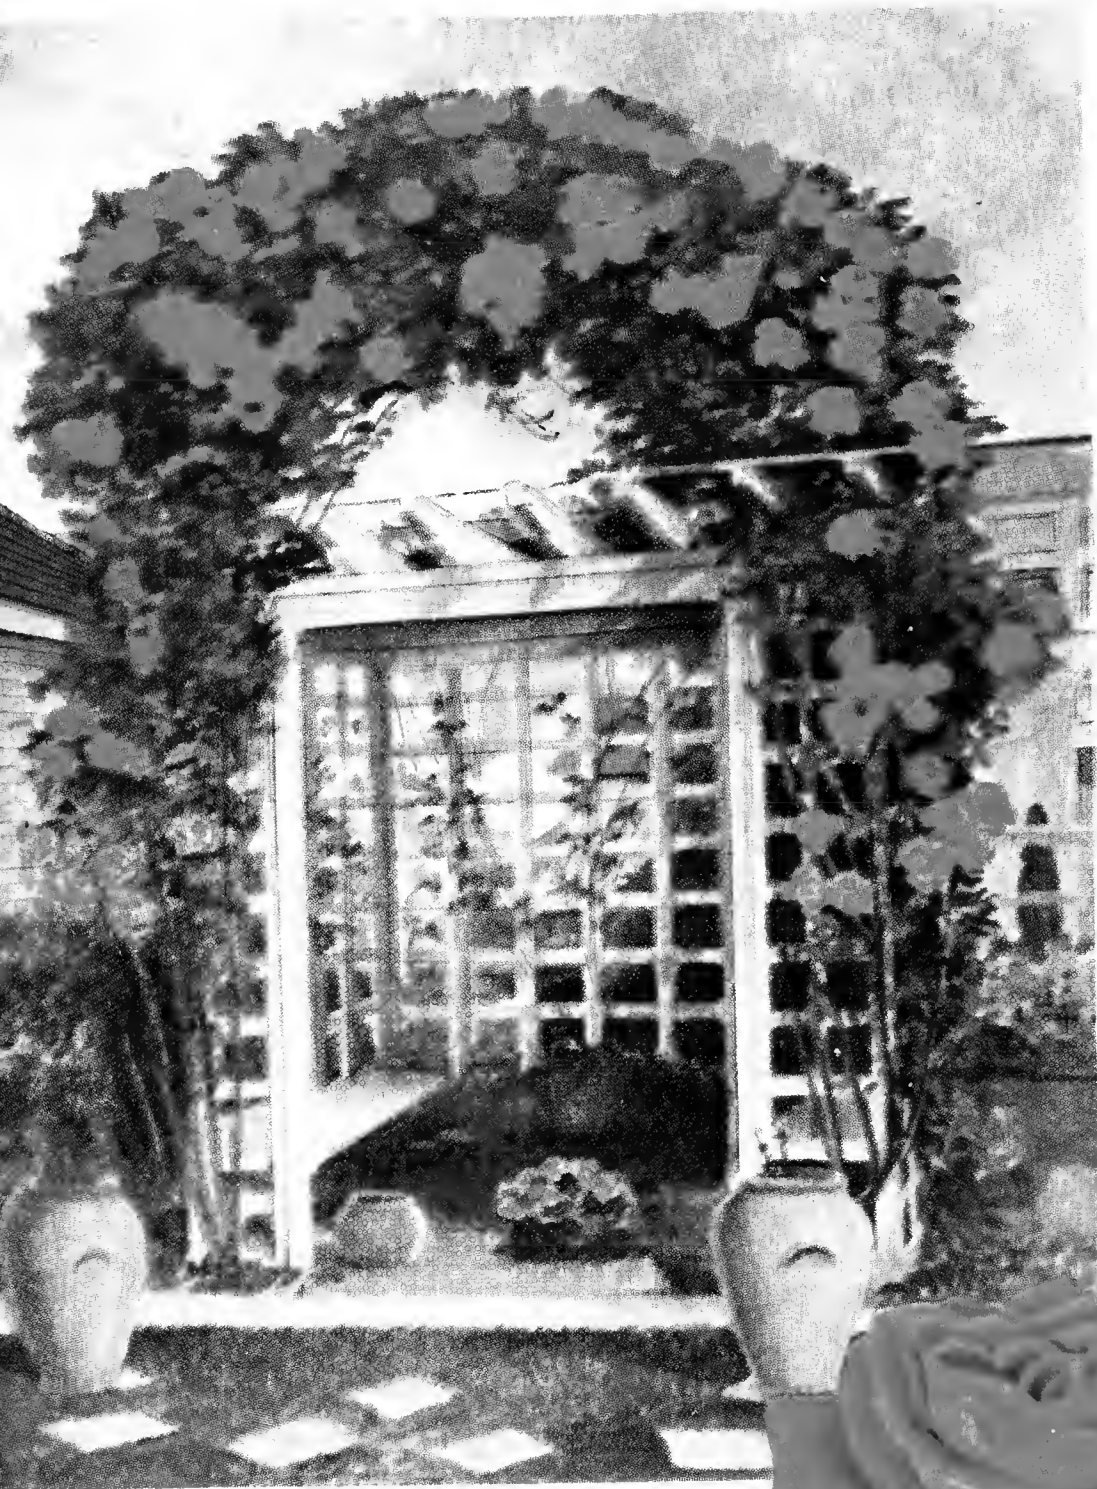

Mrs. Francis King

Five Sensational Everblooming

Everblooming Climbing Talisman Rose

The large double flowers are identical in form and color with the bush form, but even larger and more handsome, and this is saying a great deal, for no rose has ever approached the popularity of the Talisman Rose as a cut flower. And in addition to this, the Climbing Talisman Rose is a real everbloomer, being constantly in bloom from June until killed by frost. The plants furnished will be all extra strong number one field grown, two year old plants. **\$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.**

Everblooming Climbing Talisman

The illustration above was made from an actual photograph of two Climbing Talisman Roses growing over a trellis. Can you imagine anything more delightful? And the individual flower in the centre of the page, which is **less than one quarter actual size**, gives but a slight idea of the great beauty of this rose.

EVERBLOOMING CLIMBING PRESIDENT HOOVER. The President Hoover Rose has been one of the sensations of the century, and has been **AWARDED TWO GOLD MEDALS AND ONE SILVER MEDAL.** It is a rose of huge size, perfect form and marvelous colors (See illustration at left.) Now offered in climbing form at **\$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.**

Everblooming Climbing Red Radiance Rose

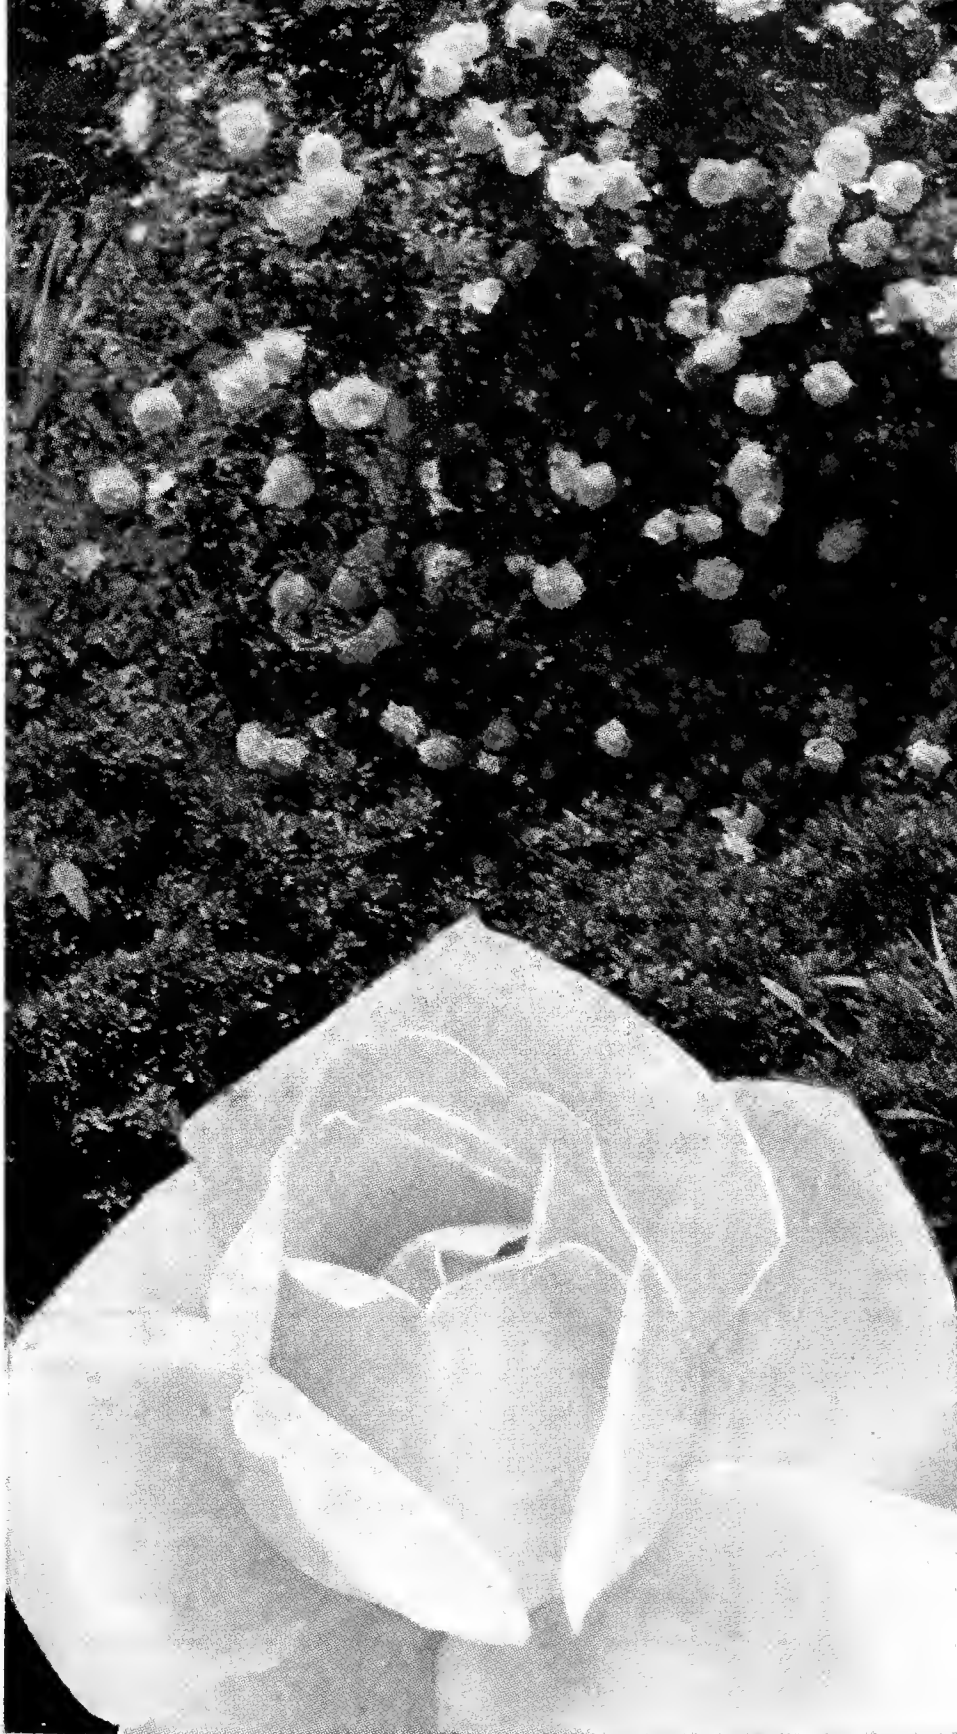

Illustrated above. This is exactly the same as the Everblooming Climbing Radiance Rose described on the next page, in form, vigor, habit of growth, and all other good qualities, but the color is a rich, deep, American Beauty Red. There never have been more dependable everbloomers, more rugged growers, or more desirable roses than the Radiance Roses, which I am now pleased to be able to offer in climbing form. The illustration above is greatly reduced, the rose being large, very double, perfectly formed and extremely fragrant. **\$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.**

Climbing Roses

Everblooming Climbing Radiance Rose

For many years the famous "Radiance" Rose has been the standard by which all other Hybrid Tea Roses are judged as to vigour, freedom of bloom, hardiness, and general desirability everywhere. It is a magnificent, large, exquisitely fragrant true pink flower, of perfect form and always loaded with blossoms. No rose has ever equalled the Radiance Rose for all these desirable qualities; for which it was AWARDED A SILVER MEDAL BY THE AMERICAN ROSE SOCIETY. NOW WE ARE ABLE TO OFFER YOU THE EVERBLOOMING CLIMBING FORM, WITH ALL THESE DESIRABLE QUALITIES PLUS A MUCH GREATER PROFUSION OF BLOOM. WHY HAVE A CLIMBING ROSE THAT BLOOMS JUST ONCE, WHEN YOU CAN HAVE THE FINEST ROSE IN THE WORLD ALWAYS IN BLOOM AT SMALL COST. See Color illustration below, which, of course, is greatly reduced in size. This illustration was made from an actual photograph. **\$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.**

ALL PRICES ON THESE TWO PAGES ARE DELIVERED ANYWHERE IN THE UNITED STATES REGARDLESS OF THE AMOUNT OF THE ORDER.

New Dawn Everblooming Climbing Rose

(Plant Patent No. 1)

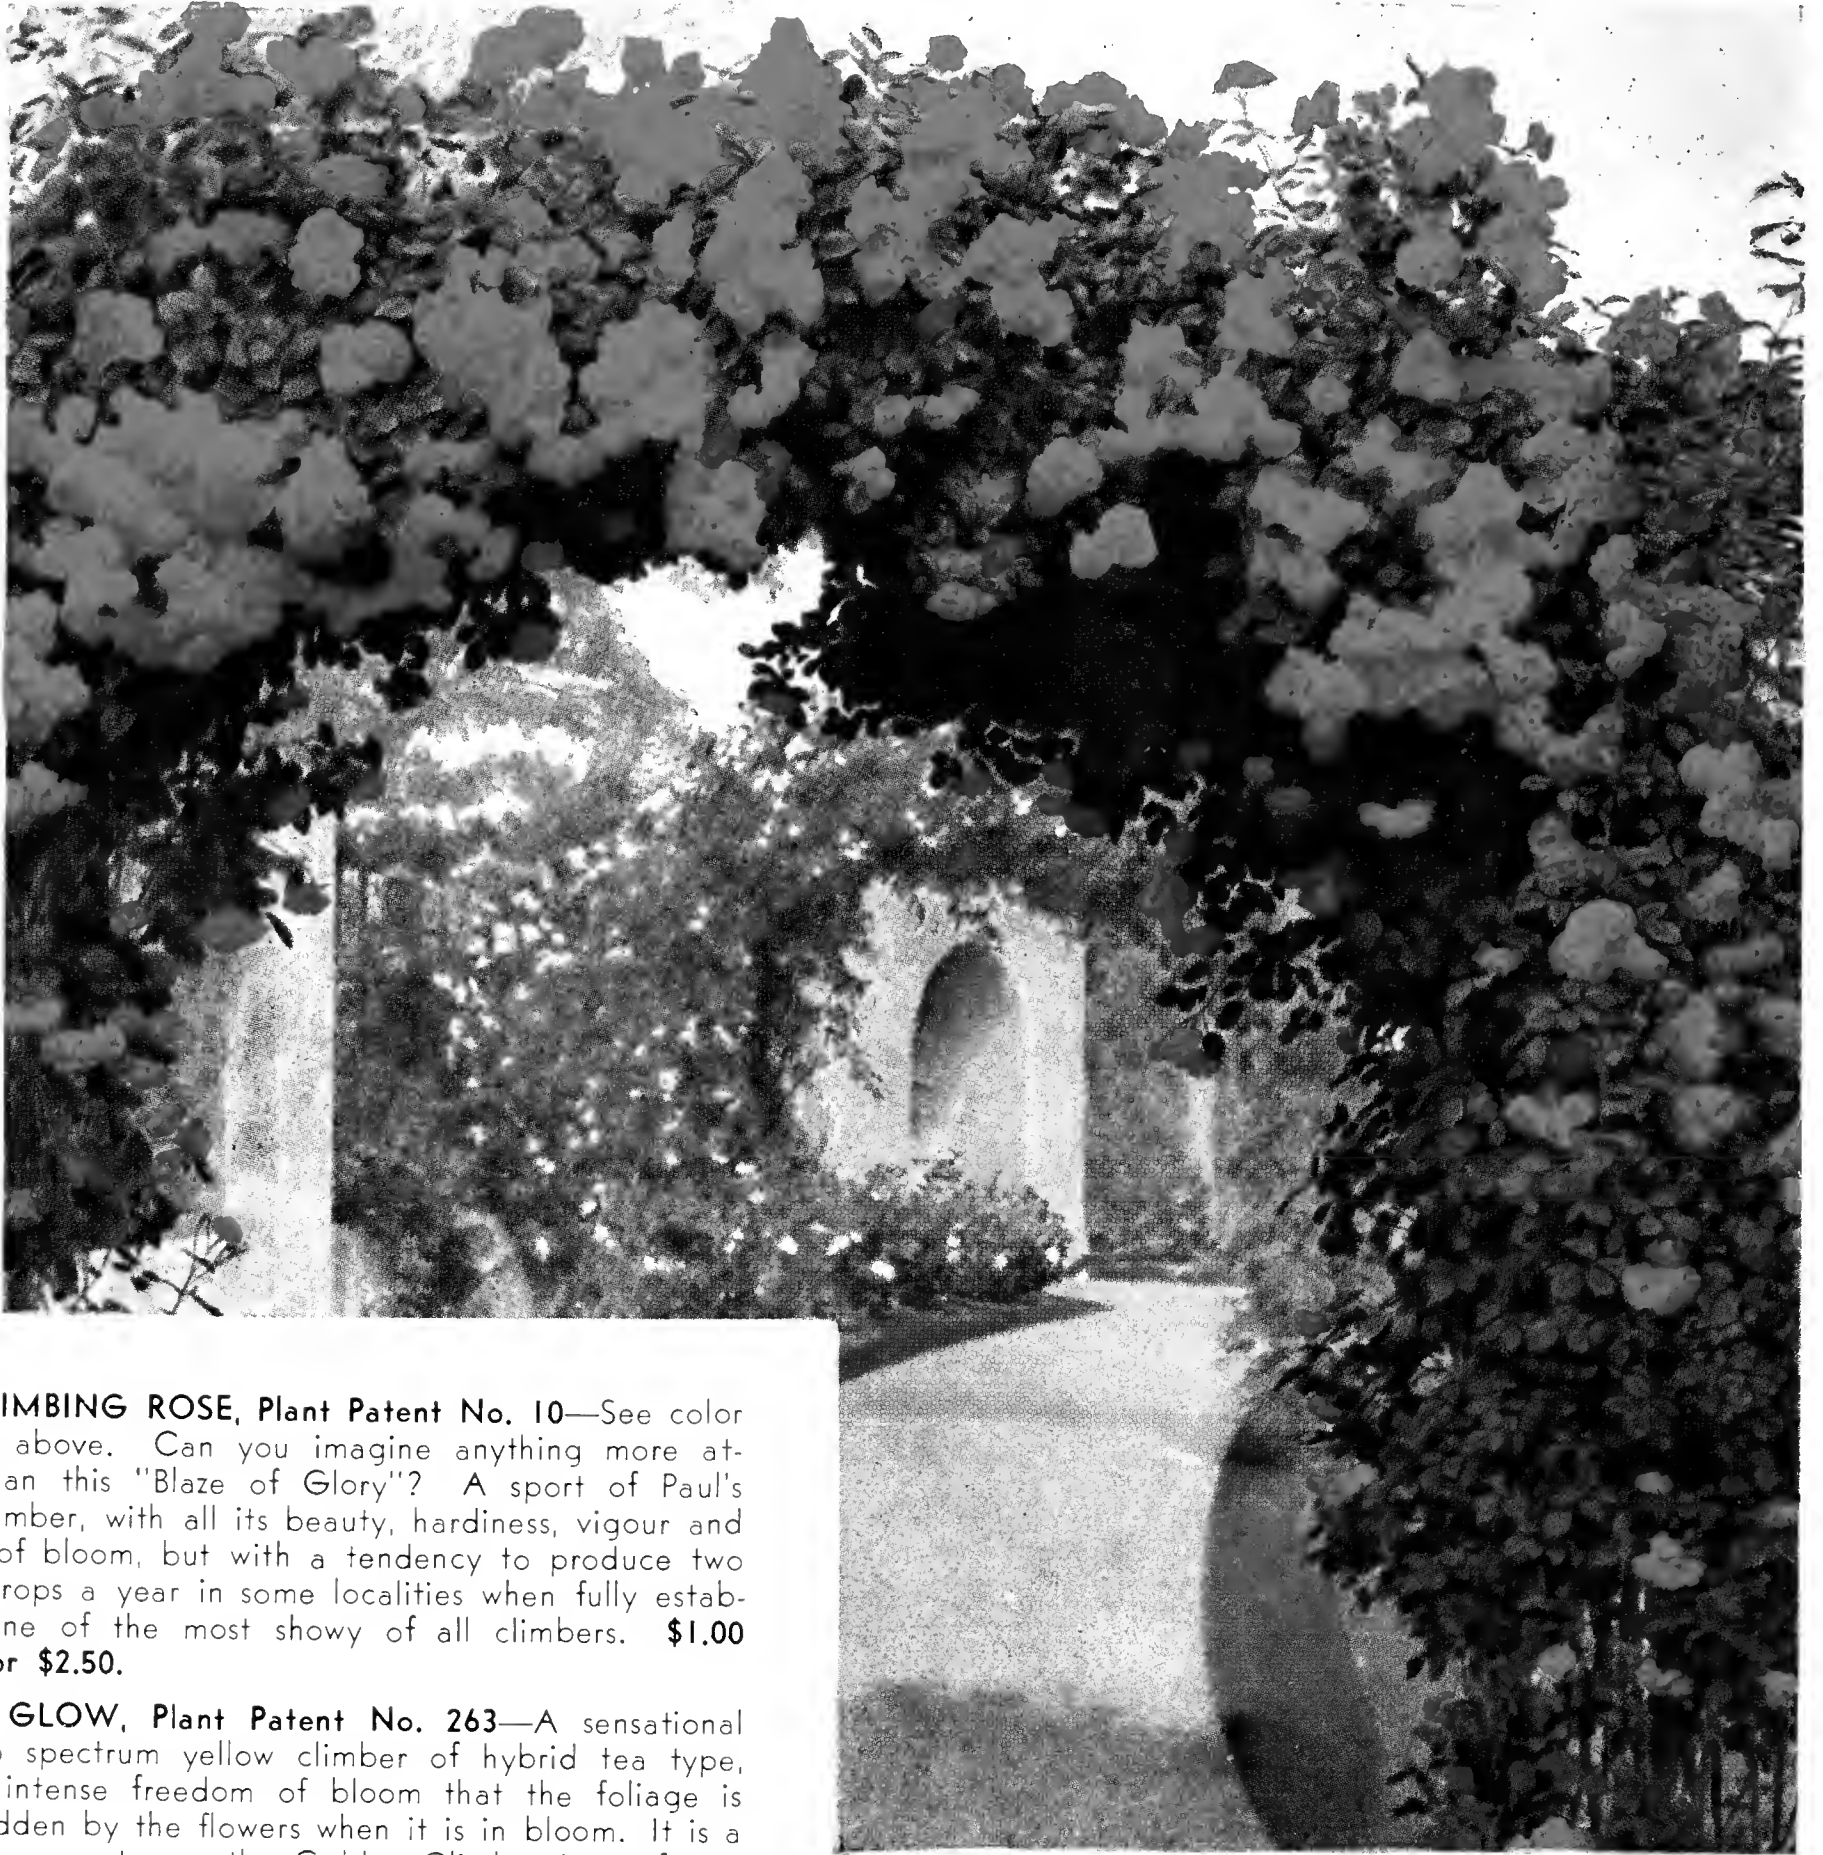

See color illustration above. A very lovely soft pink Climber, and a real everbloomer. Every plant in my Exhibition Gardens this past season was constantly in bloom all summer long right up until killed by frost. AWARDED THE BLOOMFIELD MEDAL FOR THE BEST NEW CLIMBING ROSE BY THE AMERICAN ROSE SOCIETY IN 1935, this being the first time this Medal has been awarded. A robust grower and constant bloomer. **\$1.50 each; 3 for \$3.75.**

ONLY EXTRA STRONG, TWO YEAR OLD "CREAM QUALITY" FIELD GROWN BUSHES WILL BE SENT OUT ON ALL ROSE ORDERS.

Everblooming
Climbing
Radiance
Rose

"Cream Quality" Climbing Roses

BLAZE CLIMBING ROSE, Plant Patent No. 10—See color illustration above. Can you imagine anything more attractive than this "Blaze of Glory"? A sport of Paul's Scarlet Climber, with all its beauty, hardiness, vigour and profusion of bloom, but with a tendency to produce two or more crops a year in some localities when fully established. One of the most showy of all climbers. **\$1.00 each; 3 for \$2.50.**

GOLDEN GLOW, Plant Patent No. 263—A sensational pure deep spectrum yellow climber of hybrid tea type, with such intense freedom of bloom that the foliage is literally hidden by the flowers when it is in bloom. It is a great improvement over the Golden Climber in profusion of bloom and intensity of color. Huge perfect double flowers up to 5 inches, superb as cut flowers, and borne in clusters up to 15 or more to a cluster, one cluster often making a large bouquet. Very fragrant, hardy, and disease resistant. Be the first to have this new Rose in your community. It will be a sensation. Number one, strong 2 year old "Cream Quality" field grown plants. **\$1.00 each.**

GOLDEN ORANGE CLIMBER, Plant Patent No. 96—Another new climber and a flower of great refinement. Large, semi-double, informal, crinkled flowers of pure yellow to light cadmium orange, stippled and splashed with orange-scarlet. Very rich China Tea fragrance. Superb as a cut flower and magnificent on the trellis. **\$1.50 each.**

PEGGY ANN LANDON—This delightful new climber is now offered for the first time. It is named after the charming daughter of the Governor of Kansas. The buds are "Sunflower" yellow orange. One of the first climbers to bloom. Flowers very freely produced on strong stems, singly and in clusters, and continuing over a long period. Exquisite China Tea fragrance. Produces 20 feet or more of canes. Shiny dark green foliage. **\$1.50 each.**

MOON GLOW (Patent Applied For)—Another 1938 introduction of outstanding merit now offered for the first time. A vigorous, hardy, light colored climbing rose, nearly white, shading in the centre to soft "Aaron Ward" yellow. Recurled, long lasting, abundant bloomer over a long period. Delicate fragrance. Attractive disease resistant foliage. **\$1.50 each.**

SPANISH BEAUTY (Mme. Gregoire Staechelin)—Very large, delightfully fragrant, fully double, beautifully formed pink flowers, with vivid crimson buds. An abundant bloomer and one of our best climbers, both as a garden subject and for cut flowers. Vigorous grower with large leathery foliage. **75c each; 3 for \$1.75; 6 for \$3.00.**

JACOTTE—A superb Rose which I originally imported from England, with peach, pink, and coral tones, exquisitely blended, with shiny, glossy "polished" foliage all Summer. Delightful fragrance. Canes 15 feet or more. **75c each; 3 for \$1.75; 6 for \$3.00.**

CLIMBING AMERICAN BEAUTY—Produces flowers by the hundred. I have counted over 500 on one bush, each a superb cut flower. Color American Beauty Red. **75c each; 3 for \$1.75; 6 for \$3.00.**

GOLDEN CLIMBER (Mrs. Arthur Curtis James) Plant Patent No. 28—WINNER OF THE GOLD MEDAL AWARDED BY THE MASSACHUSETTS HORTICULTURAL SOCIETY. IT ALSO HAD THE GREAT DISTINCTION OF BEING THE WINNER OF THE AMERICAN ROSE SOCIETY'S MEDAL FOR THE BEST ROSE OF 1933. The color illustration at right gives but a very faint idea of the great beauty of this magnificent Rose, for it is a perfectly gorgeous flower of Hybrid Tea Type, four to five inches in diameter, perfectly double, and of fine form. It is a pure deep yellow climber, the flowers usually being produced one to an 18-inch stem making them ideal for cutting. It has hardy, glossy foliage and ornamental red thorns on rich green wood. The flowers are exquisitely fragrant. The plant is a rugged grower and is hardy in severe sub-zero weather. It is the Yellow Climber that Rosarians have been looking for. Should be planted in full sun for best results.

\$1.00 each; 3 for \$2.50.

PLANT PATENT
NO. 28

Golden Climber

Introducing The Grace Wayman Rose

The World's Finest Climbing Rose

Every visitor who has seen the Grace Wayman Rose in bloom in my garden has pronounced it the finest Climbing Rose they have ever seen, and you will say so too when you see it in bloom. I have grown it beside every climbing rose I know of, but have not found one to compare to it. The print on this page is made from AN ACTUAL PHOTOGRAPH, GREATLY REDUCED. Comparing it with other modern pink climbing roses, it is a much better color, better form, larger, more double, of heavier substance, and a more profuse bloomer. It makes an excellent companion piece for Elegance Rose, illustrated on the back cover, and for Golden Climber, illustrated above, either on the trellis or as a cut flower. In color it is a luscious pink, a flower of mammoth size and unsurpassed form. And such profusion of bloom! One wonders how any plant can produce so many gorgeous flowers, each blossom a perfect cut flower, on a strong stout stem, as fine as any hot-house grown rose. As to hardiness, it has gone through all of our severe winters, as low as 17 below zero, without protection and without damage. It is a strong grower, producing long heavy canes.

EXTRA STRONG TWO YEAR OLD FIELD GROWN PLANTS

\$1.00 EACH

DELIVERED ANYWHERE IN THE U. S.

New Polyantha and Floribunda Roses

Arctic Hardy — Everblooming

A group of new little known Arctic Hardy Roses that are **never out of bloom**, especially bred for mass planting; noted for their permanence, freedom of bloom and ease of culture. For continuous color mass in the garden, or for hedges or borders, they are more effective than any other roses, as well as the most hardy. These newer roses are a vast improvement over the older Polyantha types, and they produce more flowers than any other roses grown. There never has been a finer group of them than those listed on this page.

ANNE POULSEN (Everblooming) Plant Patent No. 182—See color illustration. By far the best red rose in this class and the largest of this type. Large semi-double fragrant flowers of intensely vivid scarlet crimson in large sprays.
\$1.00 each; 3 for \$2.50.

ROCHESTER (Everblooming) Plant Patent No. 131—See color illustration. No bush rose ever produced more blooms per plant than Rochester. The flowers are fully double, in a most attractive subtle two-tone effect, pink and buff, deeper at the centre, having coppery tones and yellow at the base of the petals. A new innovation in this type of rose.
\$1.00 each; 3 for \$2.50.

PLANT PATENT
NO. 131

Rochester, Everblooming

Anne Poulsen, Everblooming

GOLDEN SALMON (Everblooming)—WINNER OF THREE GOLD MEDALS and other important Awards. Most unusual flowers of Golden Salmon to pure orange. No other rose like it. Very striking color. \$1.00 each; 3 for \$2.50.

MRS. R. M. FINCH (Everblooming)—The most remarkable pink rose in this class, the double flowers being freely produced in large clusters all summer long. \$1.00 each; 3 for \$2.50.

BUTTERFLIES OF GOLD (Everblooming), Patent Rights Reserved—A new large yellow Polyantha rose, being similar to the famous Golden Climber Rose, Mrs. Arthur Curtis James, in color and form, but even a purer yellow. A constant bloomer and sub-zero hardy. Now offered for the first time. \$1.00 each.

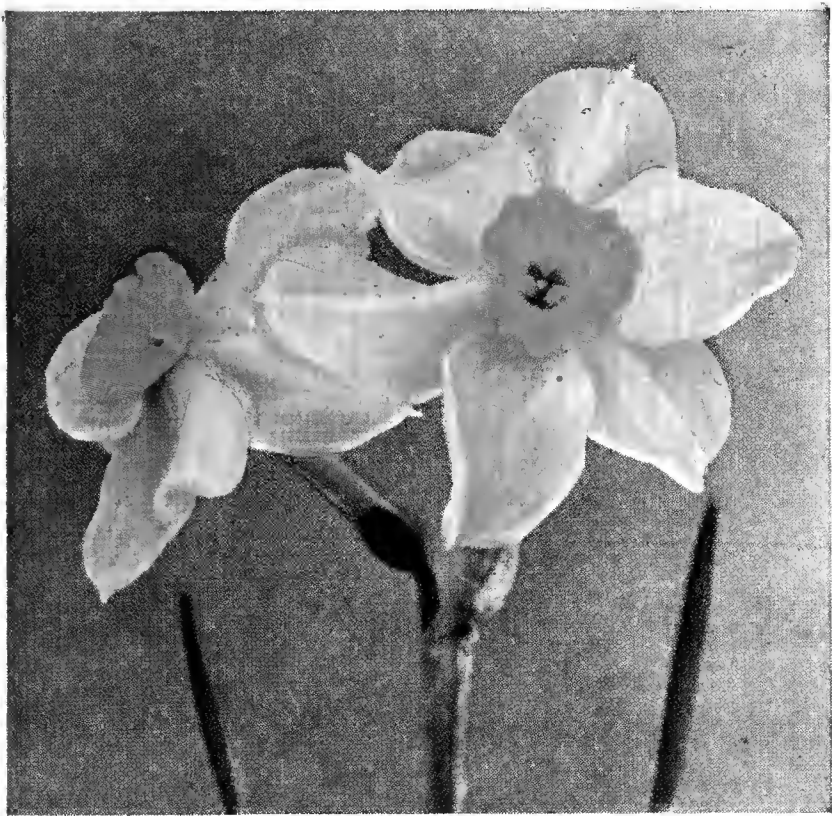

GLORIA MUNDI (Everblooming)—Winner of FOUR GOLD MEDALS, A SILVER CUP, and many other notable Awards. A sensational new Polyantha rose producing fully double flowers of orange-scarlet. \$1.00 each; 3 for \$2.50.

KAREN POULSEN (Everblooming)—Brilliant vivid flame scarlet single flowers in huge trusses produced all summer and fall. 75c each; 3 for \$1.75.

GEO. ELGER (Everblooming)—Very double flowers of golden coppery yellow, passing to clear yellow, borne in large clusters. Constantly in bloom from June until Fall. \$1.00 each; 3 for \$2.50.

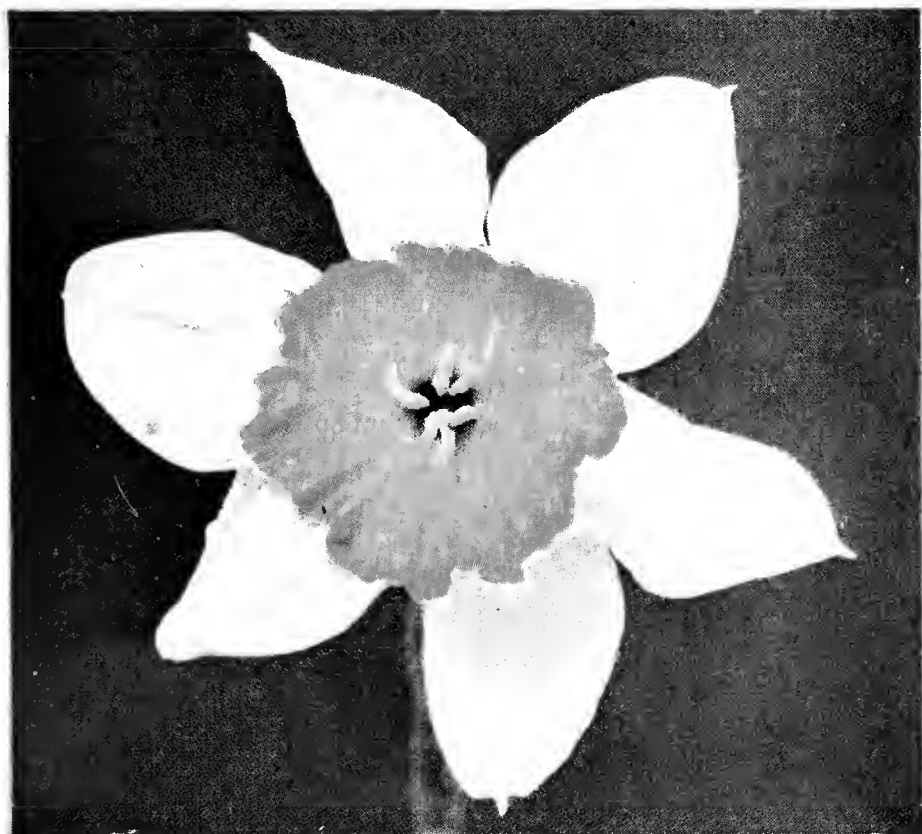

"Golden Gleam" Collection of Daffodils

CHOICEST NARCISSI and JONQUILS ALSO INCLUDED

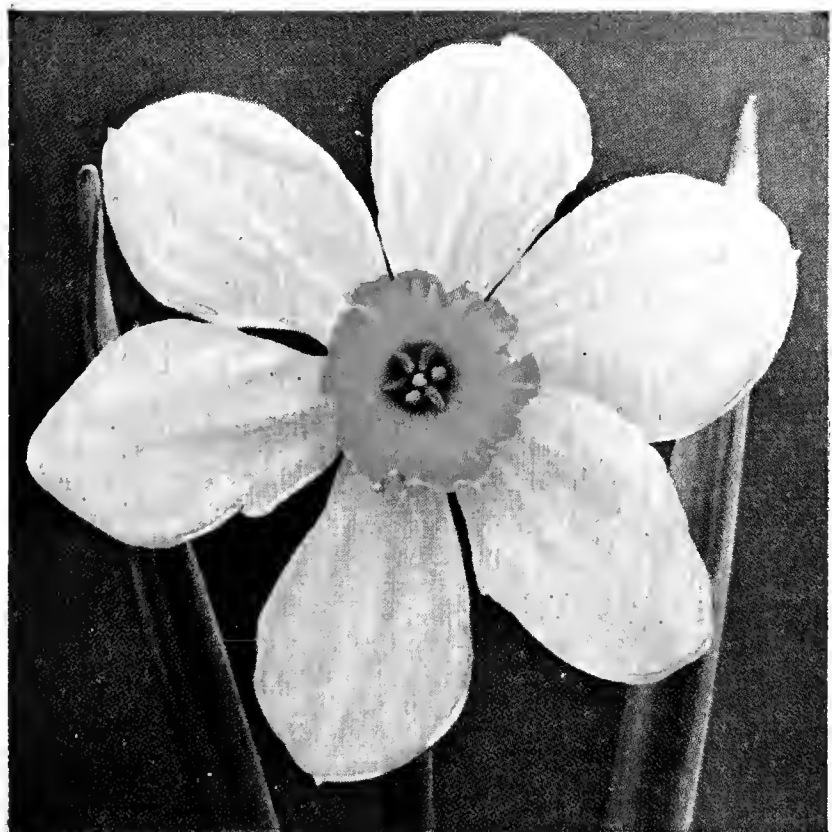

It would be hard to select another investment that will give you so much pleasure and satisfaction and garden beauty for the money expended. This collection consists of a well-balanced mixture of all of the finest types; including The Yellow Trumpet Daffodils; Bi-Color Trumpet Daffodils, with white perianths and golden yellow trumpets; the All-White Trumpet Daffodils; Barri Narcissi, Incomparabilis Narcissi, Leedsii Narcissi, Poets Narcissi, Double Narcissi; Jonquils and Jonquil Hybrids. Unfortunately, I could only illustrate a few of the types. All are hardy. Each bulb will bloom for you early next Spring, beautifying the garden and providing pleasing bouquets of cut flowers for the

house. When once planted, they may be left undisturbed for years, and will increase from year to year without any care. A few bulbs will soon produce armful of flowers. This is the finest collection of the kind that it is possible to assemble. Superb for the garden and for naturalizing. This year I am making an unusually attractive price on this collection.

Giant Flowering

The Choicest Varieties of DARWIN,

These bulbs have all been grown in Holland's fertile fields, where the world's finest bulbs are grown. THE FLOWERS ARE ALREADY IN THE BULBS WHEN YOU RECEIVE THEM. They can, therefore, be depended upon to produce gorgeous flowers in your garden next season. All illustrations, of course, are greatly reduced, but they serve to give you some idea of the great beauty of these magnificent flowers.

Each variety in this list is the finest of its kind, and you could not possibly go wrong by making your selection from this group, or by ordering the entire collection, which includes the most popular of the famous Darwins, Dutch Breeders and Cottage Tulips, indicated by the letter "D" for Darwin, "B" for Breeders, and "C" for Cottage. The Breeders and Cottage Tulips are of the same size and height as the Darwins, but each adds something distinctive to the collection. Planted together they give the maximum flowering period.

AFTERGLOW (D)—26 in. See illustration. Deep orange-red, flushed salmon, with a salmon border. 75c Doz.; \$5.75 per 100; \$55.00 per 1000.

LOUIS XIV (B)—30 in. Steel blue, shading to a coffee brown border. General effect bluish bronzy brown. 75c Doz.; \$5.75 per 100; \$55.00 per 1000.

Fantasy

King of the Parrot Tulips

These Tulips, with their quaintly twisted and lacinated petals, are the most fantastic, as well as the most handsome of all Tulips. Fantasy is a "sport" of the lovely pink Darwin Tulip, Clara Butt, which it resembles in height and color, excepting that the inside is a deeper pink, the outside marbled apple-green, and the petals beautifully lacinated. No description and no illustration can do justice to this marvelous Tulip, as they must be grown to realize their great beauty. A favorable purchase of choice Holland grown Bulbs enables me to make the most attractive price I have ever made on these remarkable Tulips.

\$1.00 Dozen.....\$7.00 per 100

Fantasy

Botanical Tulips

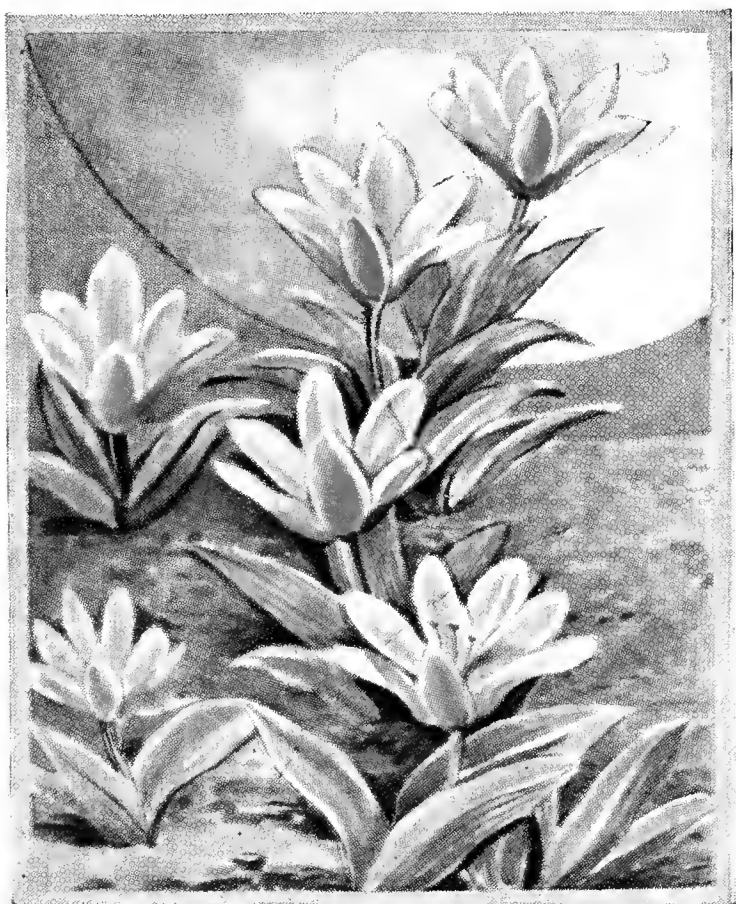

CLUSIANA—8 to 12 in. The most popular rock garden Tulip, and excellent for a small bed or the front of the border. Three alternating petals of bright red outside with a snow white border and all white inside. The other three petals are snow white, inside and out. Close at night like tiny water-lilies and open again in the morning. Early May flowering. \$1.00 Doz.; \$7.50 per 100.

KAUFMANIANA—10 in. See color illustration at left. The earliest of all Tulips, flowering in late March and early April in the latitude of New York. Excellent for the rock garden. White, flushed carmine, with yellow centre. \$1.00 Doz.; \$7.50 per 100.

EICHERLE—24 in. A very early large flowering, Botanical Tulip, which compares in size and brilliance with the finest of the later flowering Tulips, but flowers a month earlier. Huge flowers of vivid crimson. \$1.00 Doz.; \$7.50 per 100.

Kaufmaniana

Rembrandt Tulips

These remarkable Tulips are always a sensation wherever they are grown. I have never known a visitor to my gardens to pass them by when in bloom without wanting to buy them. They are the most remarkable of all Tulips and are so artistic in appearance that they look as though some talented artist has painted the beautiful stripes and feathering separately upon each flower; for every flower looks like a separate work of art. Little wonder then that the group is known as "Rembrandt" Tulips, after the world's most famous artist. The illustration shows but one of them. No two are alike. All types will be included in this extra fine mixture. Nothing will add more distinction to your garden than a planting of these remarkable "Candy Stripe" Tulips. They will flower abundantly next Spring.

Giant Flowering Crocus

Crocus

These new giant flowering Crocuses are the most glorious of all the very lovely Spring flowering Crocuses and far superior to the older sorts. Scatter them in the grass in informal masses, planting them just an inch under the sod and early next Spring they will carpet the lawn with a mass of brilliant colors and continue to flower without further care for many years.

AGNES—Deep lavender.

ALBION—Dark purple, feathered white.

ENCHANTRESS—Bright porcelain blue.

REMEMBRANCE—Lovely soft sky blue.

SNOWSTORM—Snow white.

YELLOW GIANT—Deep yellow.

Giant Size Bulbs, in any of above varieties, Bagged and Labeled

50c Doz.—\$3.75 per 100

ALL COLORS, MIXED.....\$2.75 per 100—\$22.50 per 1000

Galanthus (Snowdrops) Elwesii Giant

The first flowers of Springtime, their lovely snow-white flowers often appearing before the snow is entirely off the ground. Plant two inches deep and leave them undisturbed and they will come up year after year. Plant them in clumps amongst the shrubbery or in the flower beds or under a tree, or in the lawn or in the garden. Finest Holland-Grown Bulbs.

40c Doz.; \$3.00 per 100; \$27.50 per 1000

Chionodoxa (Luciliae) (Glory of the Snow)

Beautiful Blue with a Pure White Center

As their name suggests, they often bloom before the snow is off the ground, flowering with the snowdrops. Their handsome blue flowers are borne in sprays on stems five to six inches long. They are one of the most beautiful of the early flowering bulbous plants. Plant 3 to 4 inches deep and 2 to 3 inches apart in clumps of 25 or more bulbs. Hardy anywhere.

35c Doz.; \$2.50 per 100; \$20.00 per 1000

Muscari (Grape Hyacinth)

These very beautiful dwarf flowers are especially fine for the rock garden, or for naturalizing, either in the sun or semi-shade. They are perfectly hardy, and increase in beauty from year to year with no further care when once planted. Plant two inches apart and two inches deep. On Long Island they flower in May and early June. They make excellent cut flowers and are also fine for pot culture.

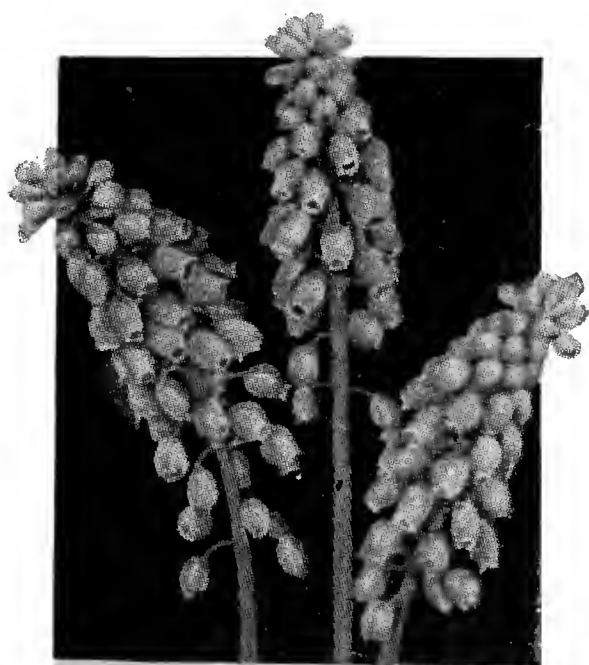

HEAVENLY BLUE—See illustration at right. This is the largest and finest of the Grape Hyacinths. Color, a heavenly blue.

50c Doz.; \$2.75 per 100; \$25.00 per 1000

Scilla Sibirica (Siberian Squills)

Beautiful bright blue flowers, bridging the period between the Crocus and the Narcissi. Enjoys semi-shade, also does well in the rock garden.

40c Doz.; \$3.00 per 100; \$27.00 per 1000

Muscari

A Few Choice Hardy Lilies

REGAL LILY—See illustration above. The most elegant of all lilies and the most hardy. Delightfully perfumed, having the fragrance of Jasmine. Gigantic white flowers with a canary yellow throat; outside suffused soft pink and brown. Flower during June and early July. Very large bulbs. 50c each; \$5.00 Doz.; \$35.00 per 100.

CANDIDUM (Madonna Lily)—A universal favorite for its lovely pure snow white flowers and delightful fragrance. Perfect Easter Lily type. Hardy and easy to grow. Flowers during June and early July. Large bulbs. 50c each; \$5.00 Doz.; \$35.00 per 100.

ELEGANS, LEONARD JOORG—Flowers in June. Apricot blended with rose. Finest Rock Garden Lily and a reliable bloomer. Height about 18 in. with flowers facing up, giving a marvelous bedding effect. Profuse bloomer. 30c each; \$2.75 Doz.

SPECIOSUM MAGNIFICUM—One of the greatest of all Hardy Garden Lilies. A flower of striking beauty and easy culture. Color deep pink, spotted deep red and margined white. Flowers late Summer and Autumn. See color illustration at right. Large bulbs. 50c each; \$5.00 Doz.; \$35.00 per 100.

PARDALINUM CALIFORNICUM—The best of the Pardalinum Type, with 15 to 20 flowers to a stalk, up to 7 feet in height when established. Color deep orange, spotted maroon, with tips of petals deep scarlet. Hardy in sun or partial shade. July flowering. 50c each; \$5.00 Doz.; \$35.00 per 100.

Twelve Specially Selected Hemerocallis (or Daylily)

Hundreds of Flowers to a Single Plant.

These magnificent Daylilies are the hardiest and most showy, as well as the most profuse bloomers of all hardy plants. They will do equally well in sun or partial shade, and in any sort of soil, and increase in beauty from year to year. No garden should be without them.

AMARYLLIS—46 in. Large, handsome, golden-orange flowers, six inches across. July, August. **\$1.00.**

CITRINA—50 in. A very sweet scented delightful soft yellow. July, August. **50c.**

DR. REGAL—2 ft. A magnificent low-growing variety of rich orange-yellow. Very fragrant. May. **50c.**

FULVA (The Tawny Daylily)—A very lovely variety with a yellow star at the throat, surrounded by deep red, shading lighter towards the edge. **25c each; \$2.50 Doz.**

GOLDENI—38 in. Very beautiful rich deep orange. July. **\$1.00.**

J. A. CRAWFORD—4 ft. One of the best deep apricot colored varieties. Flowers constantly from June to August. **\$1.25.**

J. R. MANN—42 in. One of the most handsome of all the Daylily Hybrids. Color buff and yellow, frosted. June, July, August. **\$1.00.**

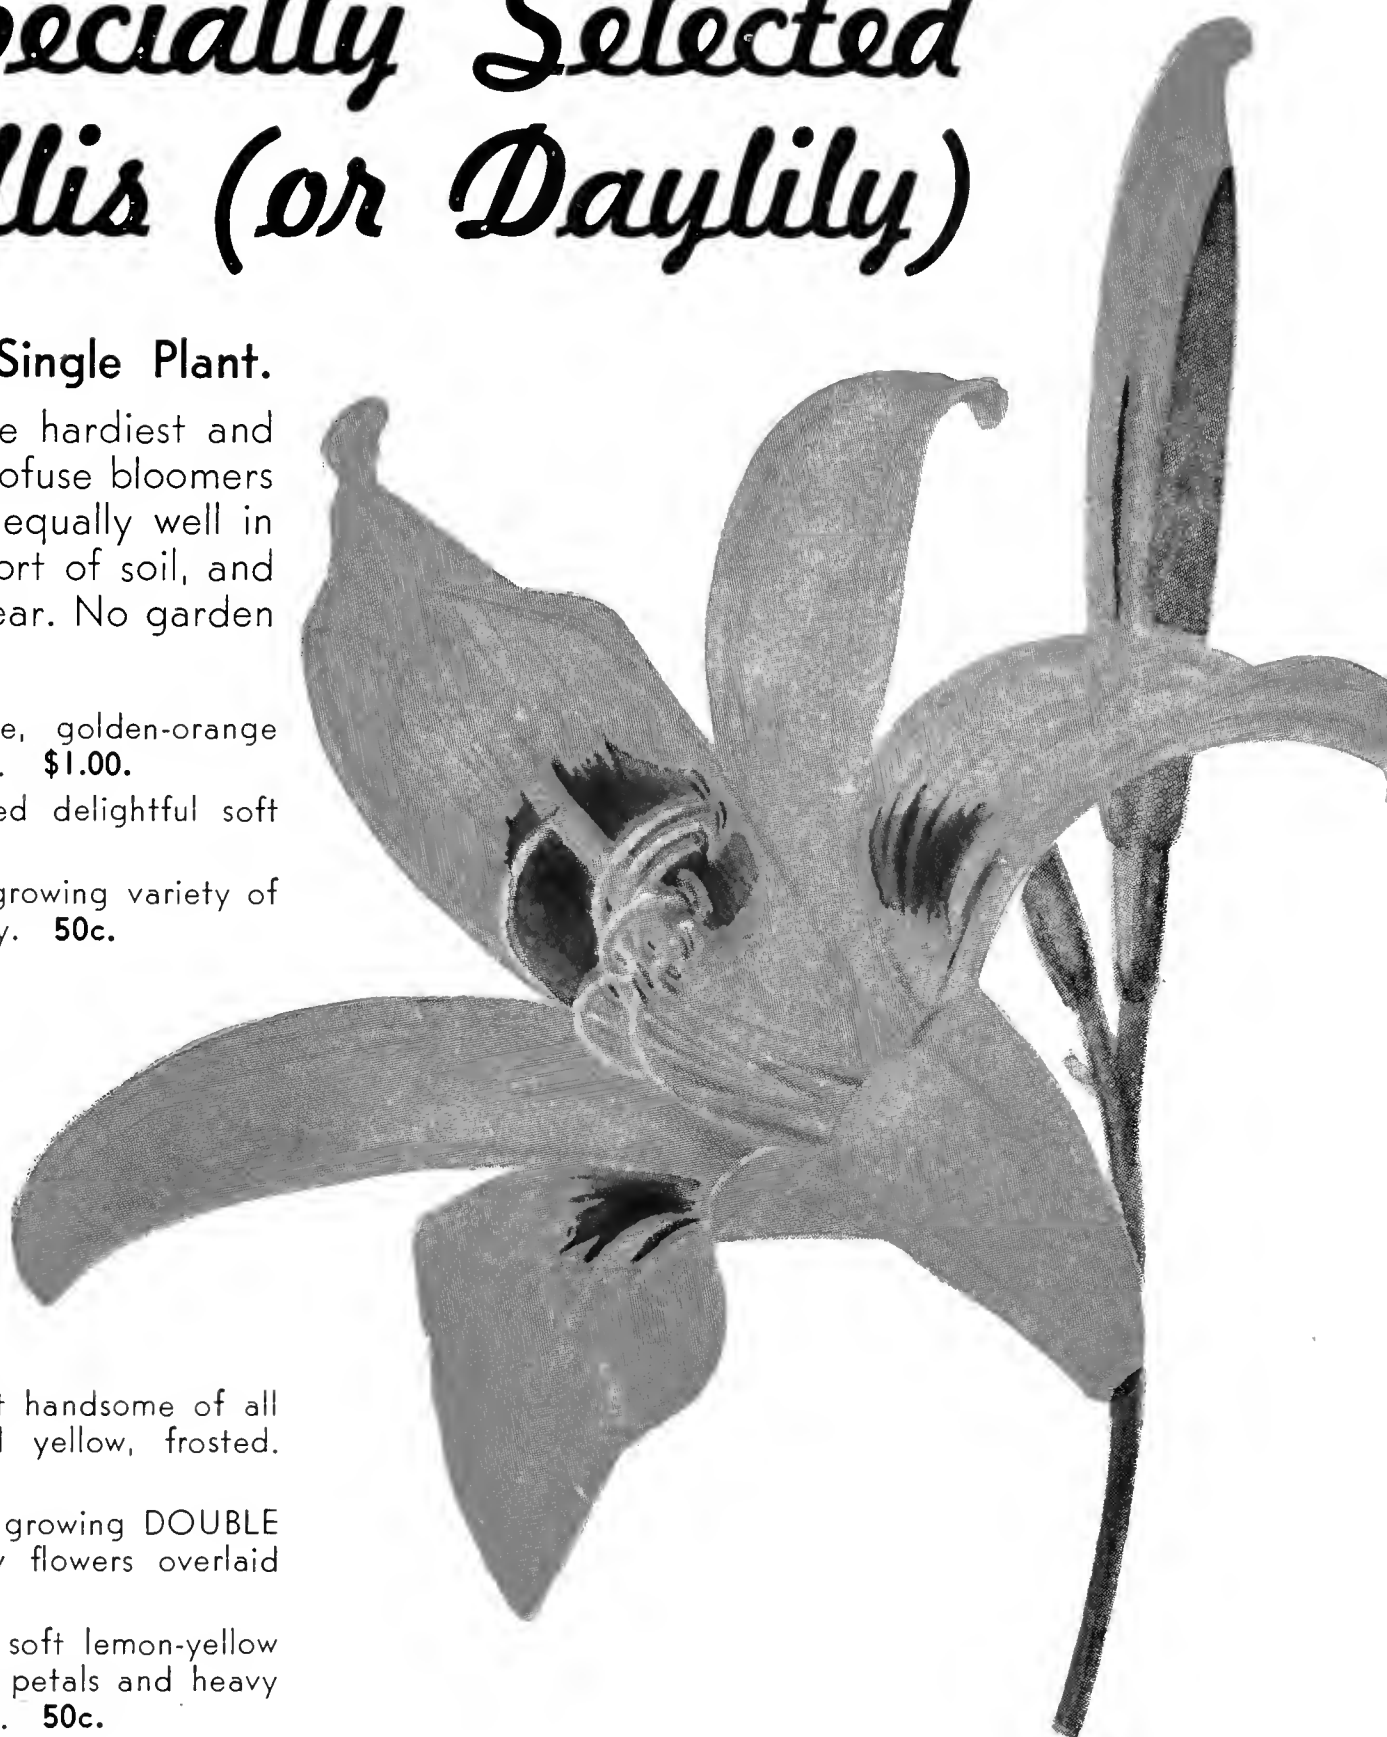

KWANSO FLORE PLENO—50 in. Tall growing DOUBLE variety with a profusion of rich yellow flowers overlaid bronzy red. July, August. **50c.**

LEMON KING—42 in. Lovely uniform soft lemon-yellow flowers with recurved, somewhat twisted petals and heavy wax-like texture. One of the best. July. **50c.**

MARGARET PERRY—50 in. The forerunner of a new race of Hybrids. **CARNELIAN RED FLOWERS** with a bright yellow star at the throat, which continues out to the tip of each petal in the form of a conspicuous narrow yellow stripe. July to September. **\$1.50.**

MRS. W. H. WYMAN—42 in. A very lovely pure soft glistening yellow. July, August. **\$1.00.**

THE GEM—40 in. Magnificent deep yellow, flowering during July and August. One of the best. **\$1.00.**

catalogue value \$10.00.....for **\$5.00**

Widar

ALBERT LEO SCHLAGETER—There is no other Phlox to approach this magnificent new variety in beauty, brilliance, purity of color and length of flowering season. The color is a true, brilliant, American Beauty Rose Red, with a deeper red eye, and with no other color or tone to mar it. The illustration does not show half the brilliance of the flower itself. The individual florets are large and the trusses are immense, and so profusely produced as to entirely hide the plant. Unquestionably the best red by all odds, producing a vivid spot in the garden that attracts attention from all directions. FLOWERS FROM JUNE UNTIL KILLED BY FROST. Extra strong two year old plants. **50c each; 3 for \$1.25; 12 for \$4.00.**

B. COMTE—Very rich velvety deep purple. Generally considered the best purple. An intensely vivid, brilliant color.

BEACON—Brilliant cherry red. One of the best.

CAROLINE VANDENBURG—A dual personality. During June and July it will rate "tops" as a "true purple" by the color chart. Later, when the weather is cool (or in warm weather if cut and taken indoors), it changes entirely and then becomes an attractive lavender shade. Large and very attractive in both stages.

COLUMBIA—Plant Patent No. 118. See color illustration. The finest pink Phlox ever grown. Each plant quickly produces many flowering stalks, literally covered with masses of beautiful cameo pink flowers, with a soft blue eye. Continuously in bloom from June until killed by frost. **40c each; 3 for \$1.10; 12 for \$3.50.**

Hardy Phlox

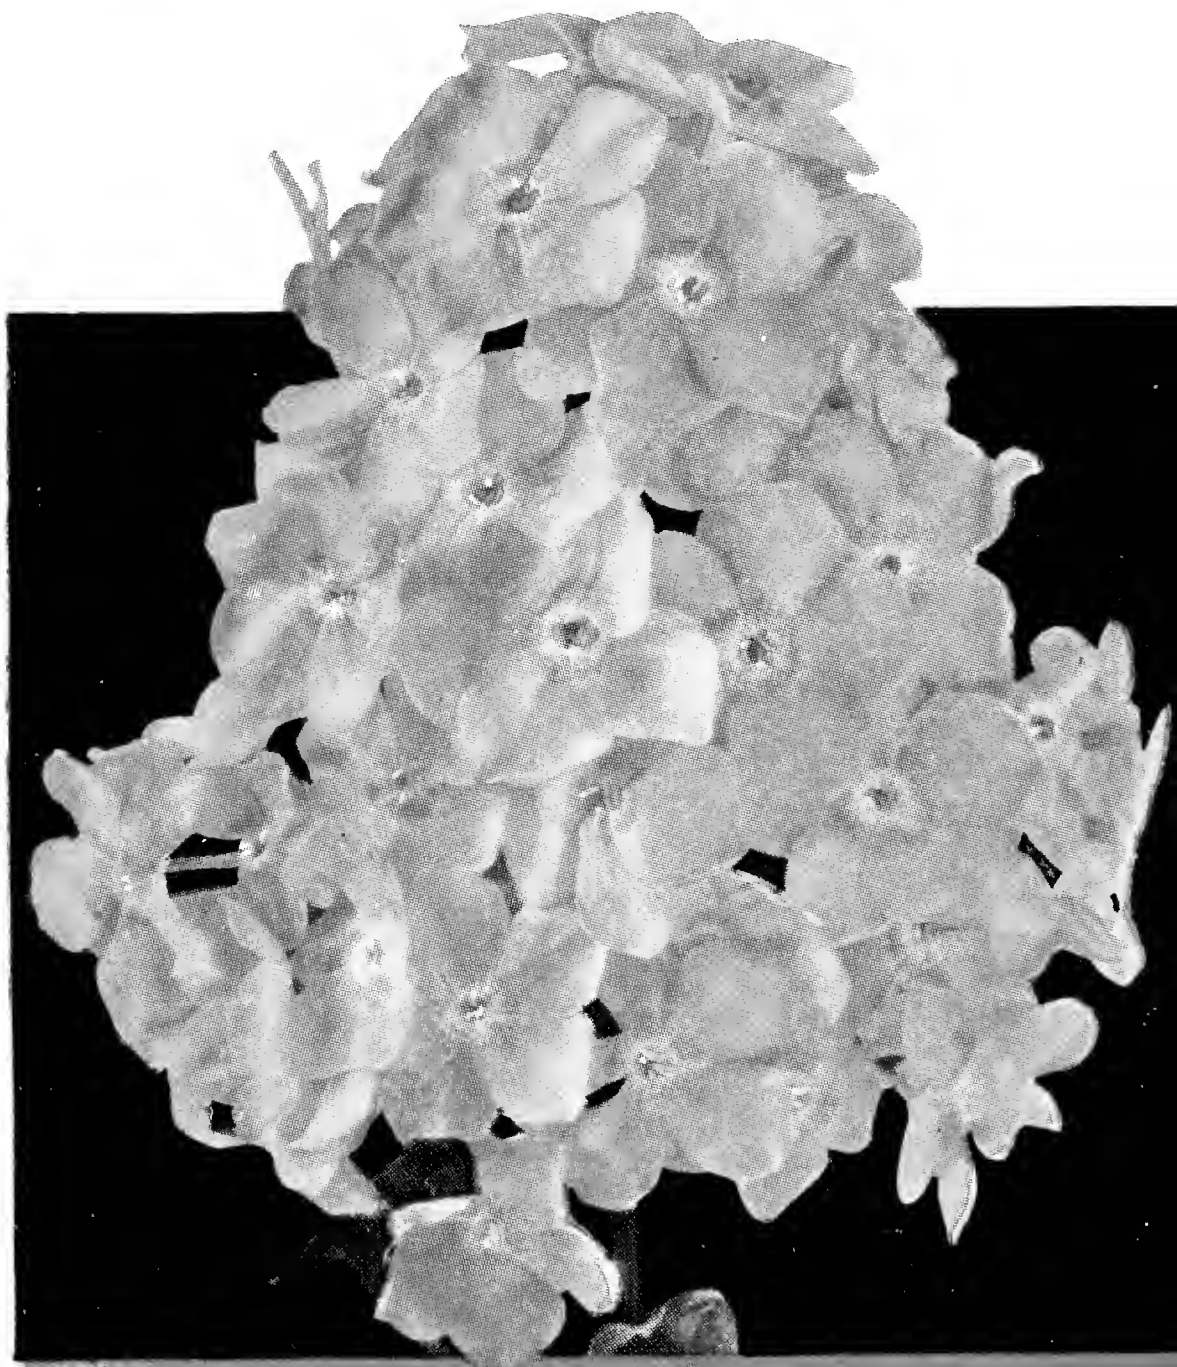

Indispensable for Masses of Color in the Midsummer Garden . . . Many Marvelous New Varieties and New Shades Now Available

This choice collection of Phlox contains all of the newest and best varieties introduced to date both in this country and abroad. No worth-while variety is omitted unless its place is filled by something even better. The modern Phlox contain clearer and purer colors, larger flowers, in huge trusses, one of which will often make a bouquet; and bloom from June to October. No flower is easier to grow or more showy. All are rugged growers and free flowering and are moderately priced. You cannot afford to be without these newer Phlox in your garden, as they will produce masses of color in midsummer when flowers would otherwise be scarce.

ALL VARIETIES, EXCEPT WHERE OTHERWISE NOTED

35c each; 3 for \$1.00; 12 for \$2.75;
100 for \$20.00

All orders over \$2.00 postpaid anywhere in the United States. On orders amounting to \$2.00 or less, please add 20c to cover postage and packing.

Phlox — COLUMBIA

The Newest and Best

BRIDESMAID—A very lovely white, with deep crimson-carmine eye. Late flowering.

DAILY SKETCH—One of the finest of the new introductions. Very large individual florets and tremendous flower heads of a lovely shade of pink, with a deep crimson center. Height 32 in. A striking variety that attracts attention from all parts of the garden.

E. I. FARRINGTON—One of the finest new salmon shades. Somewhat similar to Columbia, but larger and taller and slightly deeper, with huge individual floretes and a bright violet eye.

ELIZABETH CAMPBELL—One of the best known and most admired of all Phlox. Soft salmon-pink with lighter tone towards the center. Considered by many as best in its class.

ENCHANTRESS—My own choice of all the deep bright pinks, being somewhat similar to Columbia, but more colorful and different. The color is deep watermelon pink, with a vivid red eye, which is surrounded by a light sunburst. Very large flowers.

F. G. VON LASSBURG—One of the finest whites. Large trusses of pure snow-white.

FIREBRAND—One of the most brilliant Phlox known, being a new brilliant scarlet to vermillion, with somewhat deeper eye. Large florets.

GEN'L VON HUERTZ—An extra fine variety of salmon-red, flushed rose.

GEORGE STIPP—A new variety with very large individual blooms and clusters of glowing salmon.

HAUPTMANN KOEHL—Large compact trusses of deep rich ox-blood red. A magnificent variety.

INNOCENCE—Late blooming. Large flowers of pure glistening snow white. Very tall. 42 in.

JULES SANDEAU—Deep watermelon pink with a vivid red eye. Brilliant and colorful. Large florets, huge flower heads, long flowering season. Similar to Columbia, but larger and more colorful and with a more vivid eye.

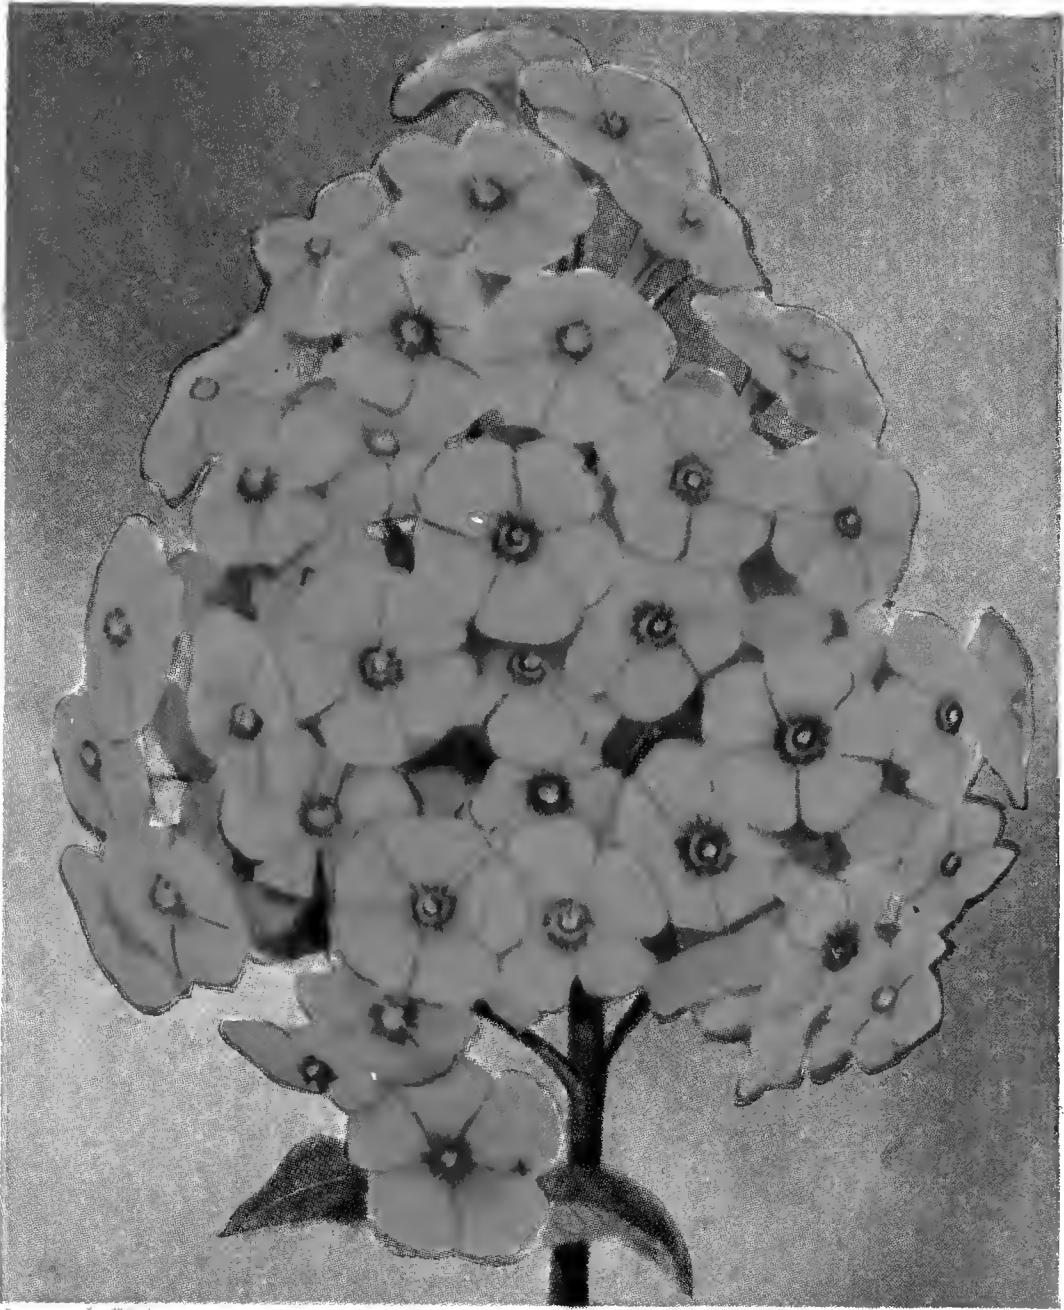

LOTHAIR—You will like this very lovely vivid crimson variety.

MME. F. CARPENTER—A fine low growing, early pure white.

MISS LINGARD—A very early flowering variety. Color pure white with a pink eye. The best early white and a profuse bloomer, producing two or three crops of flowers.

MORGENROOD—A very distinct novelty, with large clusters of bright rose flowers, with a deeper eye.

MRS. CHARLES DORR—A most unusual and very delightful shade of soft lavender pink, the flowers being produced in great profusion. No other Phlox like it.

Albert Leo Schlageter

MRS. FRYER—Large midseason pure snow-white. One of the best.

MRS. WM. JENKINS—A very profuse blooming and delightful late flowering snow-white variety.

PAINTED LADY—This is one of the most attractive Phlox I have seen, with large flower heads of very soft pink, with a brilliant Tyrian-Rose eye in striking contrast.

PECHEUR D'ISLAND—One of the rarest of all tones in Phlox, an exquisite shade of lavender.

RICHARD WALLACE—Very tall, 42 in. White, with a deep red eye. A very profuse bloomer and a magnificent variety.

SIR EDWIN LANDSEER—A very fine light-crimson toned variety.

SUNSHINE—A deeper, brighter salmon pink and a larger flower than Columbia, with a red eye.

THOR—An ever-popular pink, overlaid with a scarlet glow and a small analine-red eye.

WIDAR—This very lovely lavender Phlox, illustrated in color, is one of our most beautiful and unusual varieties.

WYNEDOT—A magnificent white, with a prominent eye of Chinese Violet. Perhaps the best of this type.

Choice Hardy Perennials

Giant
Mallow

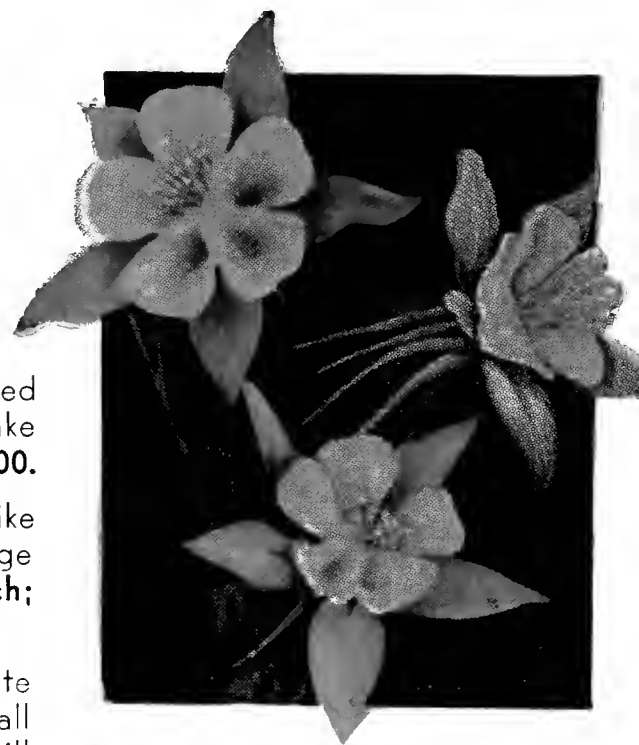

GIANT MALLOWS—3 ft. The illustration at the left is greatly reduced, THE FLOWERS BEING MORE THAN FOUR TIMES THE SIZE OF THIS ILLUSTRATION. These New Improved Giant Mallows are truly of colossal size, being as large as a dinner plate and as handsome as they are large. They look much like huge hollyhocks, but the flowers are several times as large and the plants are more bushy. They flower profusely all summer long and require no care, being among the hardiest of all flowering plants. The extra strong roots I will send will flower the first year and grow larger and finer each year. Once planted they become a permanent fixture. Either in the home garden or in the wild garden their rugged constitution gives assurance that they will take care of themselves. There are three colors, red, pink, and white, and they can be furnished in any color desired, or assorted. 50c each; 3 for \$1.00; 6 for \$1.50; 12 for \$2.75.

AQUILEGIA (Columbine)—See illustration below. 15 to 18 in. Every gardener loves the dainty Columbines. The long-spurred Hybrids I am offering are a great improvement over the older varieties. There is a wide range of delicate soft colors and rich pastel shades. Large, healthy, 2-year old field grown plants. 35c each; 3 for 75c; 6 for \$1.25; 12 for \$2.00.

BLEEDING HEARTS (Dicentra Spectabilis)—See color illustration below. This old-fashioned favorite, with graceful racemes of flowers, is a great delight in any garden, and will make itself perfectly at home anywhere. Extra Strong Clumps. 50c each; 3 for \$1.25; 6 for \$2.00.

PLUMED BLEEDING HEART—The plumed foliage of this variety has a beautiful fern-like appearance, more handsome than the finest fern. Blooms all summer and the foliage remains handsome until killed by severe freezing weather. Prefers semi-shade. 50c each; 3 for \$1.25; 6 for \$2.00.

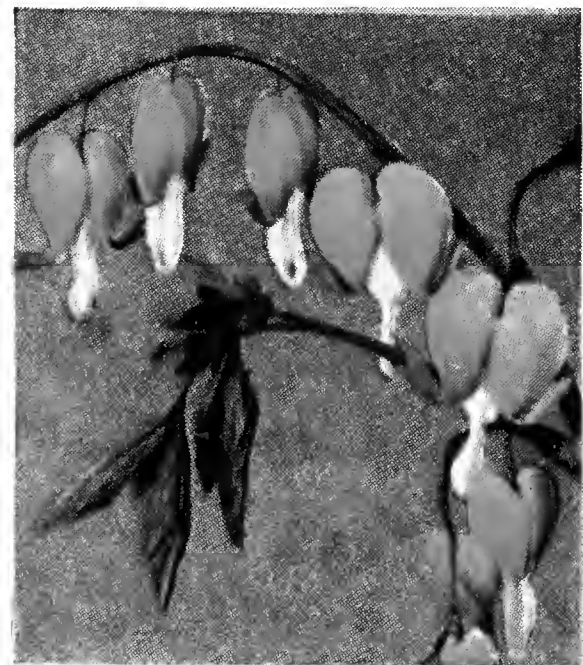

CHRISTMAS ROSE (Helleborus)—This very rare and unusual plant produces its white flowers during the Winter months, beginning in December and flowering more or less all Winter, regardless of snow or freezing weather. Its leathery foliage is evergreen and will withstand sub-zero weather. Prefers a damp shady spot. Strong Plants. \$1.00 each; 3 for \$2.75; 6 for \$5.00.

Aquilegia

CANTERBURY BELLS (Campanula Medium)—2 ft. Extremely showy bell-shaped flowers in a lovely shade of blue; also snow-white and exquisite pink shade. These are so well known that no detailed description is necessary, but they are among the most attractive of our Hardy Perennials. The plants are of upright growth and literally covered with flowers which last several days when cut. 35c each; 3 for 75c; 6 for \$1.25; 12 for \$2.00.

DELPHINIUMS "GOLD MEDAL HYBRIDS"—See illustration at right. These hybrids produce huge spikes, often 4 to 5 feet high, studded with blooms. The flowers range through mauve, blue, purple, and white. The plants I am offering this season should sell for \$1.00 each, but I have an extra fine large stock of them and am making a special price inducement that should appeal to all flower lovers. Sold in mixed colors only. 75c each; 3 for \$1.50; 6 for \$2.50; 12 for \$4.00.

Bleeding Heart

Delphiniums

"WHITE SWAN" DOUBLE DAISY—See illustration at right. Something new and unusually beautiful. Solid double pure snow-white flowers on good wiry stems from 18 to 24 inches long. Magnificent for cut flowers and for landscape of garden effect. 35c each; 3 for 75c; 6 for \$1.25.

FUNKIA SUBCORDATA GRANDIFLORA—This rare and unusual Funkia has large exquisitely fragrant white flowers resembling Easter Lilies and almost as large, borne profusely all summer long. The foliage is also ornamental. They are so hardy that they will grow anywhere in sun or shade with practically no care. Equally attractive in the rock garden or in a wild garden, or in the border or in a bed by themselves. 50c each; 3 for \$1.00; 6 for \$1.50; 12 for \$2.50.

GAILLARDIA—18 in. See color illustration below. Daisy-shaped orange yellow flowers, banded with red. Flower freely all Summer and Fall. 3 for 75c; 6 for \$1.25; 12 for \$2.00.

White Swan Double Daisy

HARDY SWEET PEAS (Lathyrus)—The flowers are quite as handsome as the annual Sweet Peas, but when once planted these hardy Sweet Peas will take care of themselves, coming up each year with little or no care. For covering a fence or a low trellis there is nothing finer. The vines die down during the Winter and make new growth each Spring and Summer. The plants are of such rugged growth and so much branched that each plant will soon cover several feet of fence or trellis. The flowers grow in clusters, one cluster being sufficient for a corsage bouquet, and the plants are covered with these clusters of delightful red, pink and white flowers all summer long. The plants are sold in mixed colors only. 50c each; 3 for \$1.00; 6 for \$1.50; 12 for \$2.50.

HARDY AGERATUM (Eupatorium Coelestinum)—See color illustration at right. 18 to 30 in. Those who are fond of the lovely blue Ageratum will surely find this hardy species even more enchanting. The plant is literally covered with true fluffy blue Ageratum flowers, from July until frost; but best of all it reappears each year without further attention after it is once planted. 3 for 75c; 6 for \$1.25; 12 for \$2.25.

SPIREA (Astilbe) "Peach Blossom"—This very lovely variety has flowers of the most exquisite delicate peach blossom pink, with glossy ornamental foliage. Exquisite as cut flowers or garden subjects. 35c each; 3 for 85c; 6 for \$1.25; 12 for \$2.00.

LYCHNIS CHALCEDONICA—3 ft. See color illustration at right. One of the most brilliant of our hardy plants, with vivid scarlet flower heads. Flowers all Summer. 35c each; 3 for 85c; 6 for \$1.50; 12 for \$2.50.

Hardy Ageratum

Lychnis Chalcedonica

Gaillardia

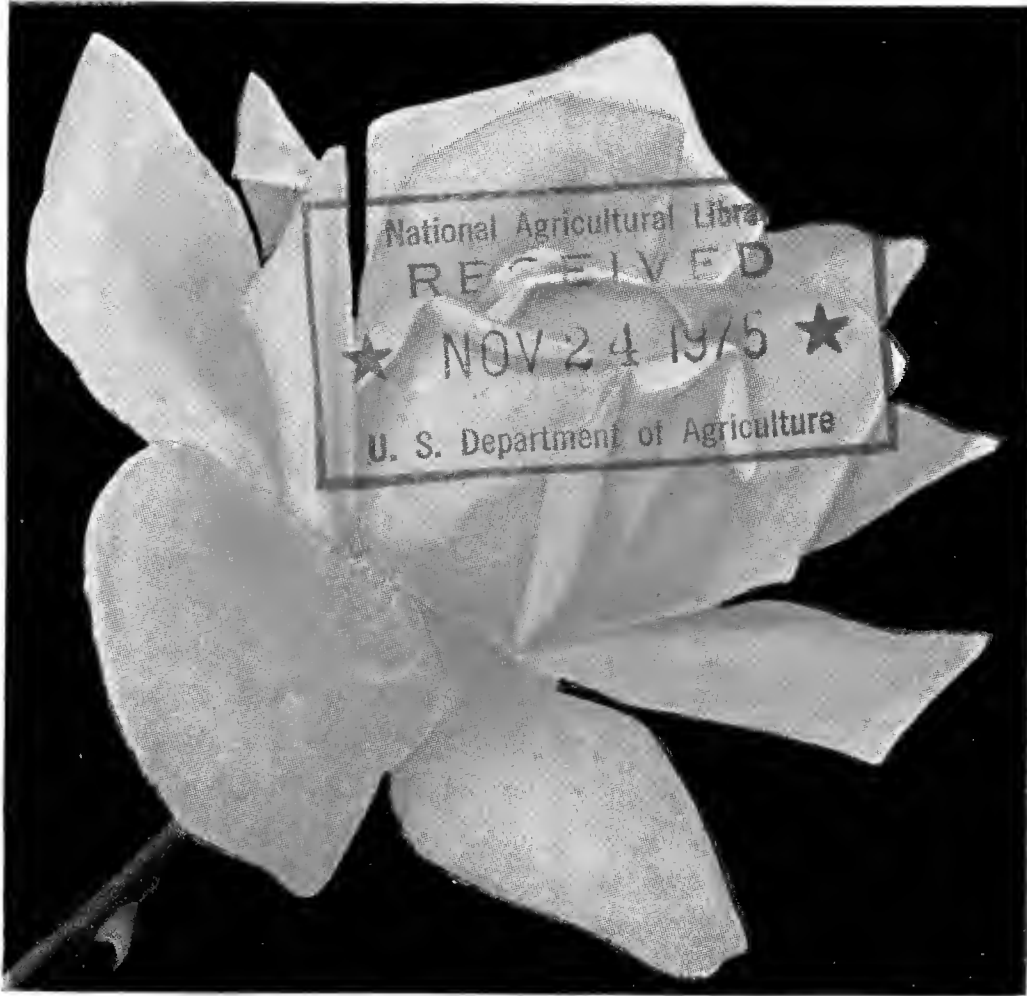

MERTENSIA VIRGINICA "VIRGINIA BLUE BELLS"—12 to 18 in. This is one of the most delightful of all early Spring flowers, and there are so many ways to make use of them. While a few plants will be the outstanding attraction of a small garden, a mass planting naturalized in a meadow, or along a woodland path, or on grassy banks, is a never-to-be-forgotten sight. In the rockery, or in the border, or the wild garden, in a quiet corner, or in a conspicuous spot, they are equally at home. The flowers, which grow in graceful clusters, are of a lovely porcelain blue, intermingled with pink florets. They flower throughout the month of May on Long Island. Try these Virginia Blue-Bells on my recommendation and you will be delighted with them. 3 for 75c; 6 for \$1.25; 12 for \$2.25.

TRILLIUM GRANDIFLORUM (Wake Robin)—10 to 12 in. This is the best of all Trilliums, producing large star-like blossoms early in the Spring. The Trillium is a native woodland plant, known as wood-lilies or Wake Robins. Fine for a shady nook in the garden or for naturalizing in the woodland. When once planted they continue to multiply and require no care. 3 for 75c; 6 for \$1.25; 12 for 2.25.

CORAL BELLS (Heuchera) "Rosamondi"—Graceful bell-shaped flowers of coral pink, 18 in. tall above tufts of low growing foliage. Very popular and the best of Coral Bells. Fine for cutting. 35c each; 3 for 85c; 6 for \$1.25.

A Rose To Revolutionize The Rose Industry Introducing "Break O' Day" Rose Forerunner of a New Race of Roses

Patent Pending

"Break O'Day" is the direct result of 35 years of rose breeding for the purpose of producing certain definite improvements in the rose family. The result is **an entirely new type of rose never before produced**. The flowers are very large, with 60 petals, exquisitely fragrant and superior to anything in commerce in Hybrid Tea Roses. The bush produces many times the number of flowers produced by the most vigorous Hybrid Tea Rose, being loaded with blossoms all summer and fall. But one of the greatest achievements produced in "Break O'Day" rose is its life expectancy of 40 to 50 years. Instead of planting a hybrid tea rose for a few years blooms, you will now plant this new type rose for a lifetime of flowers.

AND IT IS SUB-ZERO HARDY and will make 4 to 5 foot specimen shrubs three feet in diameter, constantly covered with blossoms; or you may keep them trimmed back as desired. To reproduce the color in the illustration at the left was the despair of the artist, with its many changing coral, orange, salmon and apricot tints all blended together in beautiful harmony. Extra strong, two year old field grown "Cream Quality" plants **\$1.50 each**.

Introducing "Lily Pons" Rose

Patent Rights Reserved

"Lily Pons" is the result of the same 35 years of cross breeding as "Break O'Day," with all of its good qualities as described above. "Lily Pons" is the second of this new group of Sub-Zero Hardy Improved Hybrid Tea Type Roses, and is now offered for the first time. It is undoubtedly the greatest achievement in Roses to date. Such perfection was never seen in a rose before. It is a huge flower, finer than the finest hot-house grown rose, as charming and brilliant as the singer's voice. The flowers are **five and one half inches across** and are produced freely all summer. The centre is yellow, shading to white outer petals. **\$1.50 each**.

Introducing "Elegance" Rose

Patent Pending

This new climbing rose, with its sparkling brilliance, also being introduced this year for the first time, is the last word in climbers. It is also the result of the same 35 years of cross-breeding and is the greatest climber introduced to date. This illustration is made from an actual photograph, but is greatly reduced, because if it were reproduced in actual size it would have filled this entire page, for **the flowers are up to 6 1/2 inches across**. It is the first of the climbers to flower and continues blooming over a long period. It is a prodigious bloomer. The flowers are very double and of perfect hybrid-tea form, 65 petals when first open, beautifully recurved petals; exquisite China-Tea fragrance. Yellow centre, blending to cream colored outer petals and eventually becoming pure Ivory. Stiff strong flower stems, up to 4 feet, with one to twenty flowers to a stem. New type of feathered shiny foliage. Disease resistant, subzero hardy. It has everything. Extra strong two year old field grown plants **\$1.50**. Delivered anywhere in the U. S.
